Charleston County Upcoming Resurfacing Projects

[Charleston County Government](http://www.charlestoncounty.gov) will be managing resurfacing projects in the cities of North Charleston and Charleston, starting tomorrow, May 8 and continuing for approximately one week. All work is weather permitting.

Crews will work during the night from 7:00 PM through 6:00 AM at both locations. The application is a thin, cold-applied asphalt overlay designed to improve the surface traction and aesthetic appeal of the street while it preserves the existing asphalt.

RESURFACING LOCATION:

- Palmetto Commerce Parkway (night-time)
- Henry Tecklenburg Drive (night-time)

TRAFFIC CONTROL & DRIVING:

- Traffic will be restricted to one lane during paving operations with one lane remaining open for travel.
- Orange cones will mark off work areas and other areas that should not be driven on.
- The new pavement needs to cure for approximately 3 hours before it can be opened for traffic. If you must cross over an unopened section of roadway, please wait at least one hour after it has been paved. Cross straight over - do not turn sharply on the new surface or you will damage it. Do not continue to drive on the closed lane. *Failure to follow these guidelines will damage the road and may possibly soil your vehicle and property with asphalt.*

Visit the official website at roads.charlestoncounty.org for public meeting notices and up-to-date news and information about all Charleston County Transportation Sales Tax road projects. Anyone with questions about the project can call Charleston County's Transportation Development Department at (843) 202-6140.
