

CURBSIDE PLACEMENT GUIDELINES

Proper cart placement makes the automated collection safer, cleaner and more efficient.

Do not place carts near parked cars. There should be a 3 foot clearance zone around the cart to allow for the mechanical arm.

Place cart a few inches from the curb with wheels and **handle facing your home**. Metal rod should face the street and keep the lid closed. Choose a level surface area as much as possible.

Keep a clearance zone of **3 feet away** from mailboxes and trees.

Charleston County Environmental Management appreciates your participation!
