The approved participating jurisdictions are hereby eligible applicants through the State for the following mitigation grant programs administered by the Federal Emergency Management Agency (FEMA):

- Hazard Mitigation Grant Program, our post-disaster-funding program;
- Pre-Disaster Mitigation, a competitive national program for mitigation projects and planning grants;
- Repetitive Flood Claims (RFC); and
- Severe Repetitive Loss (SRL Pilot)

We commend Charleston County for development of a solid, workable plan that will guide hazard mitigation activities over the coming years. Please note that all requests for funding will be evaluated individually according to the specific eligibility and other requirements of the particular program under which the application is submitted. For example, a specific mitigation activity or project identified in the plan may not meet the eligibility requirements for FEMA funding, and even eligible mitigation activities are not automatically approved for FEMA funding under any of the aforementioned programs.

We strongly encourage Charleston County to perform an annual review and assessment of the effectiveness of their hazard mitigation plan; however, a formal plan update is required at least every five (5) years. We also encourage each community to conduct a plan update process within one (1) year of being included within a Presidential Disaster Declaration or of the adoption of major modifications to their local Comprehensive Land Use Plan or other plans that affect hazard mitigation or land use and development. When the Plan is amended or revised, it must be resubmitted through the State as a "plan update" and is subject to a formal review and approval process by our office. If the Plan is not updated prior to the required five (5) year update, please ensure that the Draft update is submitted at least six (6) months prior to expiration of the plan.

If you or Charleston County have any questions or need any additional information please do not hesitate to contact Lonnie Ryder, of the Hazard Mitigation Assistance Branch, at (770) 220-5474, or Linda L. Byers, of my staff, at (770) 220-5498.

Sincerely,
