REQUEST**

ZREZ-03-19-00097

ZONING MAP AMENDMENT REQUEST: ZREZ-03-19-00097

PD-170 Palmetto Landing

CASE HISTORY

Public Hearing: June 4, 2019

Planning and Public Works Committee: June 13, 2019

First Reading: June 18, 2019

Second Reading: July 30, 2019

Third Reading: August 20, 2019

CASE INFORMATION

Location: 8142 Seaside Oaks Lane (Edisto Island area)

Parcel Identification: 023-00-00-294

Council District: 8

Property Size: 1.37 acres

Application: The applicant is requesting to rezone the subject property from the Agricultural Residential (AGR) Zoning District to the Planned Development, PD-170 Palmetto Landing, Zoning District to allow for boat and RV storage.

Zoning History:

Prior to this request, no zoning amendment requests have been received.

Parcel Information and Area Description:

The subject property is zoned AGR and is currently undeveloped. Adjacent properties to the east and south are zoned Community Commercial (CC), and properties to the west and north are zoned AGR. The properties zoned CC contain a real estate office, a hardware store, an insurance office, a retail store and a self-storage area. The adjacent properties zoned AGR are either vacant or contain single-family dwellings.

Overview of PD-170 Palmetto Landing:

The applicant is requesting to rezone to PD-170, Palmetto Landing, to allow for boat and RV storage. Specifically, the requested PD-170 guidelines include the following:

- Allowed land uses are limited to a maximum 28 space (12 feet by 20 feet in size), pervious parking area for boat and RV storage. If not developed as boat and RV storage in accordance with the PD, then uses permitted in the AGR Zoning District and the AGR Zoning District requirements in effect at the time of development application shall apply;
- If developed as a boat and RV storage area, a 20-foot buffer along the street frontage, a 25-foot buffer along the adjoining property line abutting to a residential lot, and an 8-foot buffer along the property line adjoining to a commercial use, will be provided in compliance with ZLDR Article 9.5;
- Access to the site will be provided from the adjoining lot fronting Highway 174. No access will be provided from Seaside Oaks Lane;
- No buildings or structures are permitted onsite if developed as a boat and RV storage area;
- Parking to comply with ZLDR Article 9.3;
- Shared signage with the adjoining commercial uses, complying with ZLDR Article 9.11; and
- Tree protection in accordance with ZLDR Article 9.4.

Municipalities Notified/Response: The City of North Charleston, Town of Hollywood, Town of James Island, and Town of Kiawah Island were notified of the request but have not responded.

Public Input: Correspondence received is included in this packet.

STAFF RECOMMENDATION

According to Section §4.23.9 E (9) of the *Zoning and Land Development Regulations Ordinance (ZLDR)*, applications for PD Development Plans may be approved only if County Council determines that the following criteria are met:

- A. The PD Development Plan complies with the standards contained in this Article;
Staff response: The proposed PD guidelines comply with the requirements of this Article.
- B. The development is consistent with the intent of the *Comprehensive Plan* and other adopted policy documents; and
Staff response: The Charleston County Comprehensive Plan recommends the Agricultural Residential Future Land Use designation for TMS 023-00-00-294. In this Future Land Use designation, "...*By-right uses include residential development, agriculture, and other uses necessary to support the viability of agriculture.*" The requested PD for boat and RV storage is not considered compliant with the Agricultural Residential Future Land Use designation, as it is not a use necessary to support the viability of agriculture.
- C. The County and other agencies will be able to provide necessary public services, facilities, and programs to serve the development proposed, at the time the property is developed.
Staff response: The applicant has submitted letters of coordination from applicable agencies to demonstrate that there are adequate public services, facilities, and programs to serve the proposed development.

The requested PD amendments are not consistent with the *Comprehensive Plan* and the *Charleston County Zoning and Land Development Regulations Ordinance (ZLDR)* and therefore Staff recommends disapproval. If, however, the Planning Commission decides to recommend approval, staff suggests the following conditions of approval:

- Section 6, Impact Assessment/Analysis, Sub-section D: Include the following at the end of the second sentence: "*, and all lighting will comply with the requirements of the ZLDR in effect at the time of subsequent development application.*"
- Section 7, Streets, second sentence: Delete the following wording from the end of the sentence, "*...also owned by applicant.*"
- Section 16, Parking, third sentence: Add a sentence directly after the third sentence that reads as follows, "*Vehicles that are transporting individual boats or RVs for storage or pick-up on the site are permitted onsite, for a maximum of 24 hours at a time.*"
- Site Plan: Amend the Sketch Plan as follows, which is demonstrated in red on the attached Sketch Plan Exhibit:
 - Show tree islands to be installed at the end of each parking row. The tree islands should be at least 9-foot x 18-foot. In the north and west corners, the tree island can be one tree in the middle of the island instead of the two strips at the end of each row.
- General PD Comment: Ensure wording is consistent throughout the PD when it refers to Seaside Oaks Lane. In some areas of the PD it is referred to as Sea Oaks Drive or Sea Oaks Lane, e.g., Section 3, Point D, Section 6, Point B.

PLANNING COMMISSION: MAY 13, 2019

Recommendation: Approval with staff's recommended conditions of approval (vote: 6-0, with 3 absent).

- Section 6, Impact Assessment/Analysis, Sub-section D: Include the following at the end of the second sentence: "*, and all lighting will comply with the requirements of the ZLDR in effect at the time of subsequent development application.*"
- Section 7, Streets, second sentence: Delete the following wording from the end of the sentence,

“...also owned by applicant.”

- Section 16, Parking, third sentence: Add a sentence directly after the third sentence that reads as follows, *“Vehicles that are transporting individual boats or RVs for storage or pick-up on the site are permitted onsite, for a maximum of 24 hours at a time.”*
- Site Plan: Amend the Sketch Plan as follows, which is demonstrated in red on the attached Sketch Plan Exhibit:
 - Show tree islands to be installed at the end of each parking row. The tree islands should be at least 9-feet x 18-feet. In the north and west corners, the tree island can be one tree in the middle of the island instead of the two strips at the end of each row.
- General PD Comment: Ensure wording is consistent throughout the PD when it refers to Seaside Oaks Lane. In some areas of the PD it is referred to as Sea Oaks Drive or Sea Oaks Lane, e.g., Section 3, Point D, Section 6, Point B.

Speakers: 1 person spoke in support of the application and no one spoke in opposition to the application.

Notifications:

93 notification letters were sent to owners of property located within 300 feet of the boundaries of the subject parcel, and individuals on the Edisto Island Interested Parties List on April 26, 2019. Additionally, this request was noticed in the Post & Courier on April 26, 2019.

PUBLIC HEARING: JUNE 4, 2019

Speakers: 1 person spoke in support of the application and no one spoke in opposition to the application.

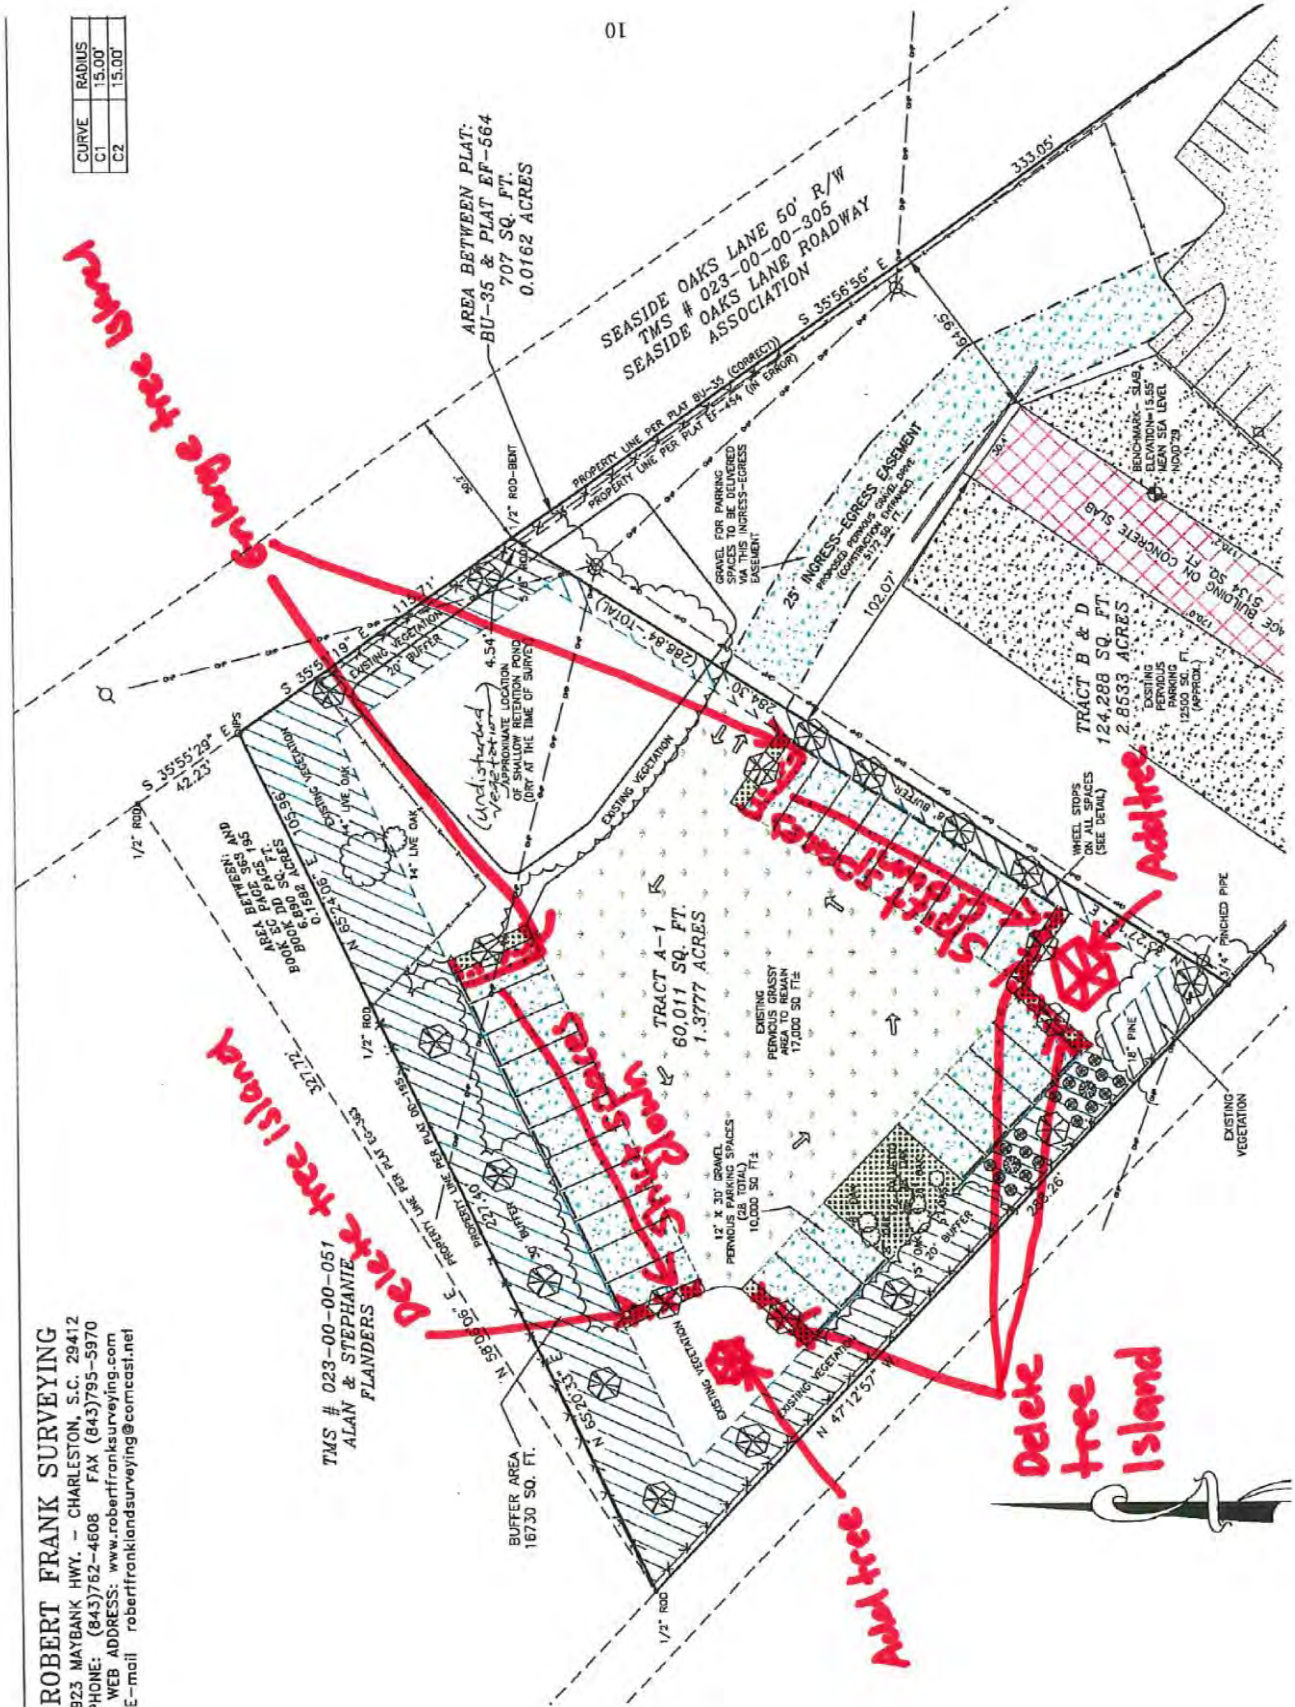

Notifications:

93 notification letters were sent to owners of property located within 300 feet of the boundaries of the subject parcel, and individuals on the Edisto Island Interested Parties List on May 17, 2019. Additionally, this request was noticed in the Post & Courier on May 17, 2019, and a notification sign was posted on the property on May 17, 2019.

PD-170 Requested Guidelines

- Allowed land uses are limited to a maximum 28 space (12 feet by 20 feet in size), pervious parking area for boat and RV storage. If not developed as boat and RV storage in accordance with the PD, then uses permitted in the AGR Zoning District and the AGR Zoning District requirements in effect at the time of development application, shall apply;
- If developed as a boat and RV storage area, a 20-foot buffer along the street frontage, a 25-foot buffer along the adjoining property line abutting to a residential lot, and an 8-foot buffer along the property line adjoining to a commercial use, will be provided in compliance with ZLDR Article 9.5;
- Access to the site will be provided from the adjoining lot fronting Highway 174. No access will be provided from Seaside Oaks Lane;
- No buildings or structures are permitted onsite if developed as a boat and RV storage area;
- Parking to comply with ZLDR Article 9.3;
- Shared signage with the adjoining commercial uses, complying with ZLDR Article 9.11; and
- Tree protection in accordance with ZLDR Article 9.4.

Approval Criteria

According to Section §4.23.9 E (9) of the *Zoning and Land Development Regulations Ordinance (ZLDR)*, applications for PD Development Plans may be approved only if County Council determines that the following criteria are met:

- A. The PD Development Plan complies with the standards contained in this Article;**
Staff response: The proposed PD amendments comply with the applicable requirements of this Article.
- B. The development is consistent with the intent of the *Comprehensive Plan* and other adopted policy documents; and**
Staff response: The Charleston County Comprehensive Plan recommends the Agricultural Residential Future Land Use designation for TMS 023-00-00-294. In this Future Land Use designation, “...By-right uses include residential development, agriculture, and other uses necessary to support the viability of agriculture.” The requested PD for boat and RV storage is not considered compliant with the Agricultural Residential Future Land Use designation, as it is not a use necessary to support the viability of agriculture.
- C. The County and other agencies will be able to provide necessary public services, facilities, and programs to serve the development proposed, at the time the property is developed.**
Staff response: The applicant has submitted letters of coordination from applicable agencies to demonstrate that there are adequate public services, facilities, and programs to serve the proposed development.

Recommendation

- The request is not consistent with the Comprehensive Plan and the Charleston County Zoning and Land Development Regulations Ordinance (ZLDR)

STAFF RECOMMENDATION:

Disapproval

PLANNING COMMISSION RECOMMENDATION:

Approval with conditions (vote: 6-0, with 3 absent)

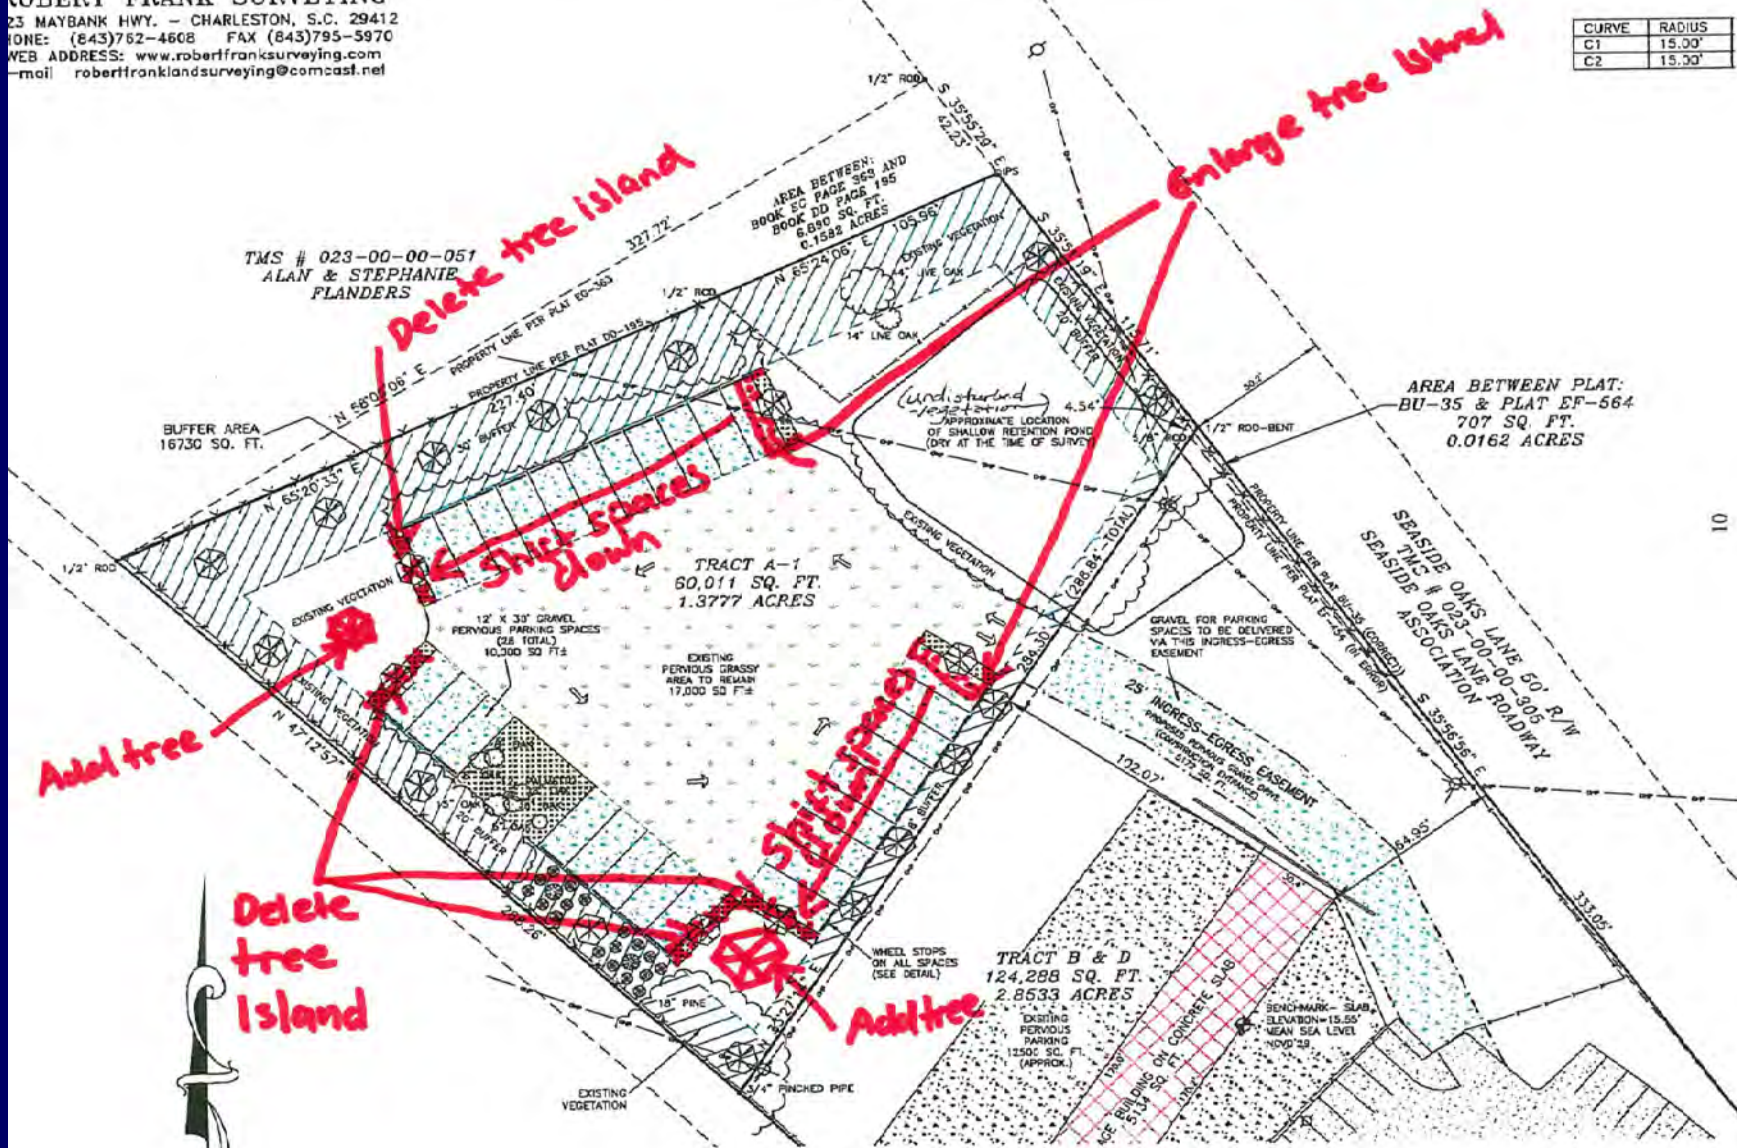

Conditions of Approval Recommended by Planning Commission:

- Section 6, Impact Assessment/Analysis, Sub-section D: Include the following at the end of the second sentence: *“, and all lighting will comply with the requirements of the ZLDR in effect at the time of subsequent development application.”*
- Section 7, Streets, second sentence: Delete the following wording from the end of the sentence, *“...also owned by applicant.”*
- Section 16, Parking, third sentence: Add a sentence directly after the third sentence that reads as follows, *“Vehicles that are transporting individual boats or RVs for storage or pick-up on the site are permitted onsite, for a maximum of 24 hours at a time.”*
- Site Plan: Amend the Sketch Plan as follows, which is demonstrated in red on the attached Sketch Plan Exhibit:
 - Show tree islands to be installed at the end of each parking row. The tree islands should be at least 9-feet x 18-feet. In the north and west corners, the tree island can be one tree in the middle of the island instead of the two strips at the end of each row.
- General PD Comment: Ensure wording is consistent throughout the PD when it refers to Seaside Oaks Lane. In some areas of the PD it is referred to as Sea Oaks Drive or Sea Oaks Lane, e.g., Section 3, Point D, Section 6, Point B.

PLANNED DEVELOPMENT GUIDELINES

**PALMETTO LANDING
1.37 ACRES**

EDISTO ISLAND, SOUTH CAROLINA

Planned Development Guidelines pursuant to Article 4.23 of the Charleston County Zoning and Land Development Regulations

1. **Planned Development Name:** Palmetto Landing
2. **Statement of Objectives:** The intent of this Planned Development is to create an area for the parking and storage of boats and recreational vehicles, in accordance with the criteria provided within these guidelines, and all applicable ZLDR requirements.
3. **Intent and Results of Proposed PD:** Pursuant to §4.23.4 of the Charleston County ZLDR, these Planned Development zoning district regulations are intended to encourage achievement of the goals of the *Charleston County Comprehensive Plan* and to allow flexibility in development of property that proposes a single or multiple use(s) that will result in improved design, character, and quality of new or redesigned developments and preserve natural and scenic features of open spaces. The intended use is to accommodate the storage of Boats and Recreational Vehicles. If the property is not developed in accordance with this Planned Development, then the property shall be developed in accordance with the permitted uses and requirements of the AGR zoning district that are in effect at the time of the development application submittal. The following objectives may be attained through the use of the planned development process:
 - A. **A maximum choice in the types of environment available to the public by allowing a development that would not be possible under the strict application of the standards of this Ordinance that were designated primarily for development on individual lots.**

There will be no structural development on this lot. A planned development is the preferred zoning, rather than a commercial zone request. Community Commercial (CC) zoning adjoins this lot to the East and is also across Seaside Oaks Lane to the West. *See* ZLDR Zoning Map Exhibit at page 51.

- B. **A greater freedom in selecting the means to provide access, light, open space and design amenities;**

The design will allow for convenient access, without intruding onto Seaside Oaks Lane, while allowing for open areas and buffers.

C. Quality design and environmentally sensitive development by allowing development to take advantage of special site characteristics, locations and land use arrangements;

The design will enhance the perimeter of the lot, with natural buffers. The Seaside Oaks Lane and Crane Road sides of the lot will be protected, in that there will be no access or signage along the road.

D. A development pattern in harmony with the applicable goals and strategies of the *Comprehensive Plan*:

The proposed PD is in harmony with the Comprehensive Plan: the permeability of the lot and ingress/egress road giving access to it will promote the protection of natural resources, preserve the natural buffers onsite, will not increase the residential growth/density on Edisto Island, and will reduce the impact on existing roads. There will be no access onto Sea Oaks Lane or Crane Road, other than for maintenance.

E. The permanent preservation of common open space, recreation areas and facilities:

N/A: there will be no structural development on the property.

F. An efficient use of the land resulting in more economical networks of utilities, streets, schools, public grounds and buildings, and other facilities:

The ingress/egress through the commercial lot that adjoins this lot minimizes road impact. There will be no impact on utilities or schools.

G. A creative approach to the use of land and related physical facilities that results in better development and design and the construction of amenities:

N/A: There will be no construction on this site.

H. A development pattern that incorporates adequate public safety and Chapter 4 Base Zoning Districts County of Charleston Zoning and Land Development Regulations 4-34 transportation-related measures in its design and complements the developed properties in the vicinity and the natural features of the site.

Natural features are preserved, by retaining existing fencing and buffers, and permeable surfaces will be used.

I. Site Information: The total acreage of this Planned Development is 1.37 total acreage, containing total of 0.00 acres of freshwater wetland acreage, and 0.00 acres of Critical Line wetland, or marsh, acreage. The TMS Number for the lot is

023-00-00-294. The property is located approximately 450 feet west of the intersection of Highway 174 and Seaside Oaks Lane, a 50 foot wide unimproved dirt road extends west from Highway 174, Edisto Island. The property is across Seaside Oaks Lane from a parcel zoned Community Commercial (CC) District, and is adjacent to property also zoned CC. *See* Site Plan and Aerial Exhibit at page 9.

4. Proposed Land Uses Include:

- A. A maximum of 28 parking spaces, 12 feet by 20 feet in size, will be provided. The mix of the number of boats and RVs stored onsite will be determined by the market, but the total number shall not exceed 28 spaces, which is a total of approximately 6,720 square feet of permeable surface.
- B. All remaining land area, 1.22 acres, shall remain as open space, with appropriate buffers, access and turning areas.
- C. Parking shall be provided in accordance with ZLDR Sections 9.3.4 and 9.3.6, and the guidelines of this PD. There will be no motor vehicles, other than RVs, parked on this property, and other than for the occasional, mowing/maintenance of the property, and no business activity taking place on the lot. *See* Charleston County ZLDR § 9.3.4 and § 9.3.6 Exhibits at pages 53 and 55.

5. Maximum Density:

- A. No density is proposed for Boat and RV storage. If the boat/RV storage facility is not established, development on the site shall comply with the AGR zoning district requirements in effect at the time of subsequent development application submittal.

6. Impact Assessment/Analysis:

- A. This PD will have minimal impact on existing public facilities and services (e.g. roads and streets, water, sewer, etc.), as there will be no new curb cuts, no additional wells or septic tanks, and the parking lot itself will have a permeable surface.
- B. There will be no access onto Sea Oaks Lane, other than for maintenance, and all routine access will be minimal, through the adjacent lot fronting on Highway 174, via the use of a recorded ingress/egress easement.
- C. Based upon data derived from the publication “Trip Generation” 10th Ed., 2018, Institute of Transportation Engineers, there were no classifications for the storage of RVs or Boats. The closest land use types to these proposed uses are “Campgrounds/Recreational Vehicle Parks” and “Storage Units,” as shown on the attached Trip Generation Exhibit. The average trips per day for Campgrounds/RV Parks is 0.52 trips per unit (*14.56 trips per day for 28 units*) and the average trips per day for Storage Units is 0.22 trips per unit (*6.16 trips per day for 28 units*). Based on this data, it is predicted that there will be between 6.16-14.56 trips per

day for the 28 parking spaces proposed for this planned development. See Trip Generation Exhibit at page 25.

D. There is currently no lighting on the lot, and there will be no direct lighting for this lot. If lighting is added in the future, it would be indirect, and minimal, (a light pole), for safety and security purposes only, and will be handled through SCE&G. Such an additional light would be provided by a light pole that would be placed on the adjoining lot, abutting this lot.

E. Services provided to this lot will be from the St. Paul's Fire District, SCE&G, Charleston County Sheriff's Office, and Charleston County EMS.

7. **Streets:** Neither Seaside Oaks Lane nor Crane Road will be used for access to this PD. Access will be from Highway 174 through the adjacent tract also owned by applicant. A perpetual easement and accompanying plat has been recorded, dedicating the ingress/egress from the adjacent land to this site. See Perpetual Easement Exhibit at page 13.

8. **Compliance with the ZLDR:**

A. All matters not addressed in this PD shall comply with the requirements and processes of the AGR zoning district in the ZLDR, in effect at the time of subsequent development application submittal.

B. This PD will comply with all zoning regulations, applicable provisions of the Charleston County Comprehensive Plan, and with such conditions as may be attached to any rezoning to the applicable PD district.

C. The provisions of Article 3.10, Variances, of the Ordinance shall not apply to the Planned Development. All major changes must be approved by County Council. Any requests for tree variances shall be made in accordance with the ZLDR. (Article 3.10, Variances)

D. (a) The PD development is consistent with the intent of applications sections of the *Comprehensive Plan* and other adopted policy documents:

1) **2.2.1 Land Use:** This use respects the rural residential character of Edisto Island, is coordinated with the provision of community and public facilities, and protects cultural and natural resources.

2) **2.2.3 Natural Resources:** This Plan retains buffers, reduces impervious surfaces, and retains natural open space, without adding developed structures.

3) **2.2.5 Population:** This PD does not add to population growth, since there will no residential structures. This use will allow existing residents to have an alternative option to storing their boats and/or RVs.

(b) The County and other agencies will be able to provide necessary public services, facilities, and programs to serve the development proposed, at the time the property is developed.

9. **Historic and Archaeological Survey:** Based upon a review of the site plan and aerial photo of this property, the director of Historical Services of the S.C. Department of Archives and History reported via an attachment in the packet, that there were no areas of archeological or historic significance. *See* Historical and Archeological Survey Exhibit at page 17.

10. **Letters of Coordination and Community Outreach:**

A. **Letters of Coordination:** Letters of coordination from the Charleston County EMS Office, the St. Paul's Fire District, South Carolina Electric & Gas, (SCE&G), Charleston County Sheriff, South Carolina Department of Transportation, (SCCDOT), the United States Postal Service (USPS), Charleston County Public Works - Stormwater, and Charleston County Public Works - Roads Division were required and are included in the application packet. There were no objections from any of the above agencies. *See* Letters of Coordination Exhibits beginning at page 28.

B. **Community Outreach:** The proposed Planned Development guidelines was presented to the Edisto Island Preservation Alliance and the Edisto Island Community Association, Inc. *See* Community Outreach Exhibits beginning at page 47.

11. **Dimensional Standards:** If development of boat and RV storage occurs, the standards of this Planned Development shall apply; however, if the property is not developed as boat/RV storage, development shall comply with AGR zoning district requirements in effect at the time of subsequent development application submittal.

A. **Density/Intensity and Dimensional Standards:** This Planned Development shall be subject to the following density, intensity and dimensional standards as specified in Table 4.6.3 below.

B. **Buffer Standards:** The land use and right-of-way buffer requirements in Chapter 9 of the ZLDR are applicable and will be implemented at the time of subsequent development application submittal. Vegetated buffers shall be 20-feet along the street frontage, 25-feet along the side boundary where it adjoins a residential use, and 8-feet along the side boundary where it adjoins a commercial use. Existing six foot chain link fencing, as shown on the Site Plan, will be retained.

Table 4.6.3, AGR Density/Intensity and Dimensional Standards	
AGR DENSITY/INTENSITY AND DIMENSIONAL STANDARDS	
MINIMUM SETBACKS	
Front/Street Side	50 feet
Interior Side	15 feet
Rear	30 feet
OCRM Critical Line	50 feet

12. **Architectural Guidelines:** No buildings or structures are permitted onsite if it is developed as boat/RV storage in accordance with the Planned Development.
13. **Access:** Access shall be via a recorded easement crossing the adjoining commercial tract that fronts on Highway 174, owned by the same property owner, and not from Seaside Oaks Lane. An ingress/egress easement has been signed and recorded as referenced on the approved recorded plat showing the easement. Any requirements made by the SCDOT shall be met. *See Easement Exhibit at page 13.*
14. **Areas Designated for Future Use:** The site shall remain in a natural state until such time as permits for the parking spaces use approved in this plan, are approved and issued.
15. **Signs:** Off-premise signage is not permitted, unless it is shared signage with the adjoining hardware store, insurance office, existing self-service storage, etc., that is on the adjacent lot, in compliance with Sec. 9.11.3.C of the ZLDR. The shared sign on the adjoining hardware store sign will be used. It will be the same type, size, approximately 3' x 6' in size, and installed just below the smaller portions of the sign. *See Charleston County ZLDR § 9.11.3.C Exhibit at page 58.*
16. **Parking:** Parking shall be provided in accordance with ZLDR Sections 9.3.4 and 9.3.6, and the guidelines of this PD. *See Charleston County ZLDR § 9.3.4 and § 9.3.6 Exhibits at pages 53 and 55.* There will be no motor vehicles, other than RVs, parked on this property, and other than a van or truck for occasional, mowing/maintenance of the property, and no business activity taking place on the lot. A maximum of 28 parking spaces, 12 feet by 20 feet in size, will be provided. The mix of the number of boats and RVs stored onsite will be determined by the market, but the total number shall not exceed 28 spaces, which is a total of approximately 6,720 square feet of permeable surface. *See Site Plan Exhibit at page 9.*
17. **Tree Protection:** All existing trees will be preserved, in accordance with Article 9.4 of the Charleston County ZLDR. *See Charleston County ZLDR Article 9.4 Exhibit at page 60.*
18. **Resource Areas:** With the exception of mature trees and existing vegetated buffers, there are no resources onsite.

19. Stormwater: The Planned Development shall comply with all Charleston County Stormwater Ordinances and South Carolina Department of Health and Environmental Control (SCDHEC) Regulatory requirements. For site locations within sensitive drainage basins prone to flooding, additional stormwater design and construction requirements may be required by the Director of Public Works prior to stormwater permit approval and issuance. Where possible and allowed by permit, the proposed site may connect its stormwater system with existing conveyances. Best Management Practices (BMPs) shall be utilized installed, and maintained in compliance with applicable approved permits throughout all phases, including, but not limited to, site development, construction, and post construction.

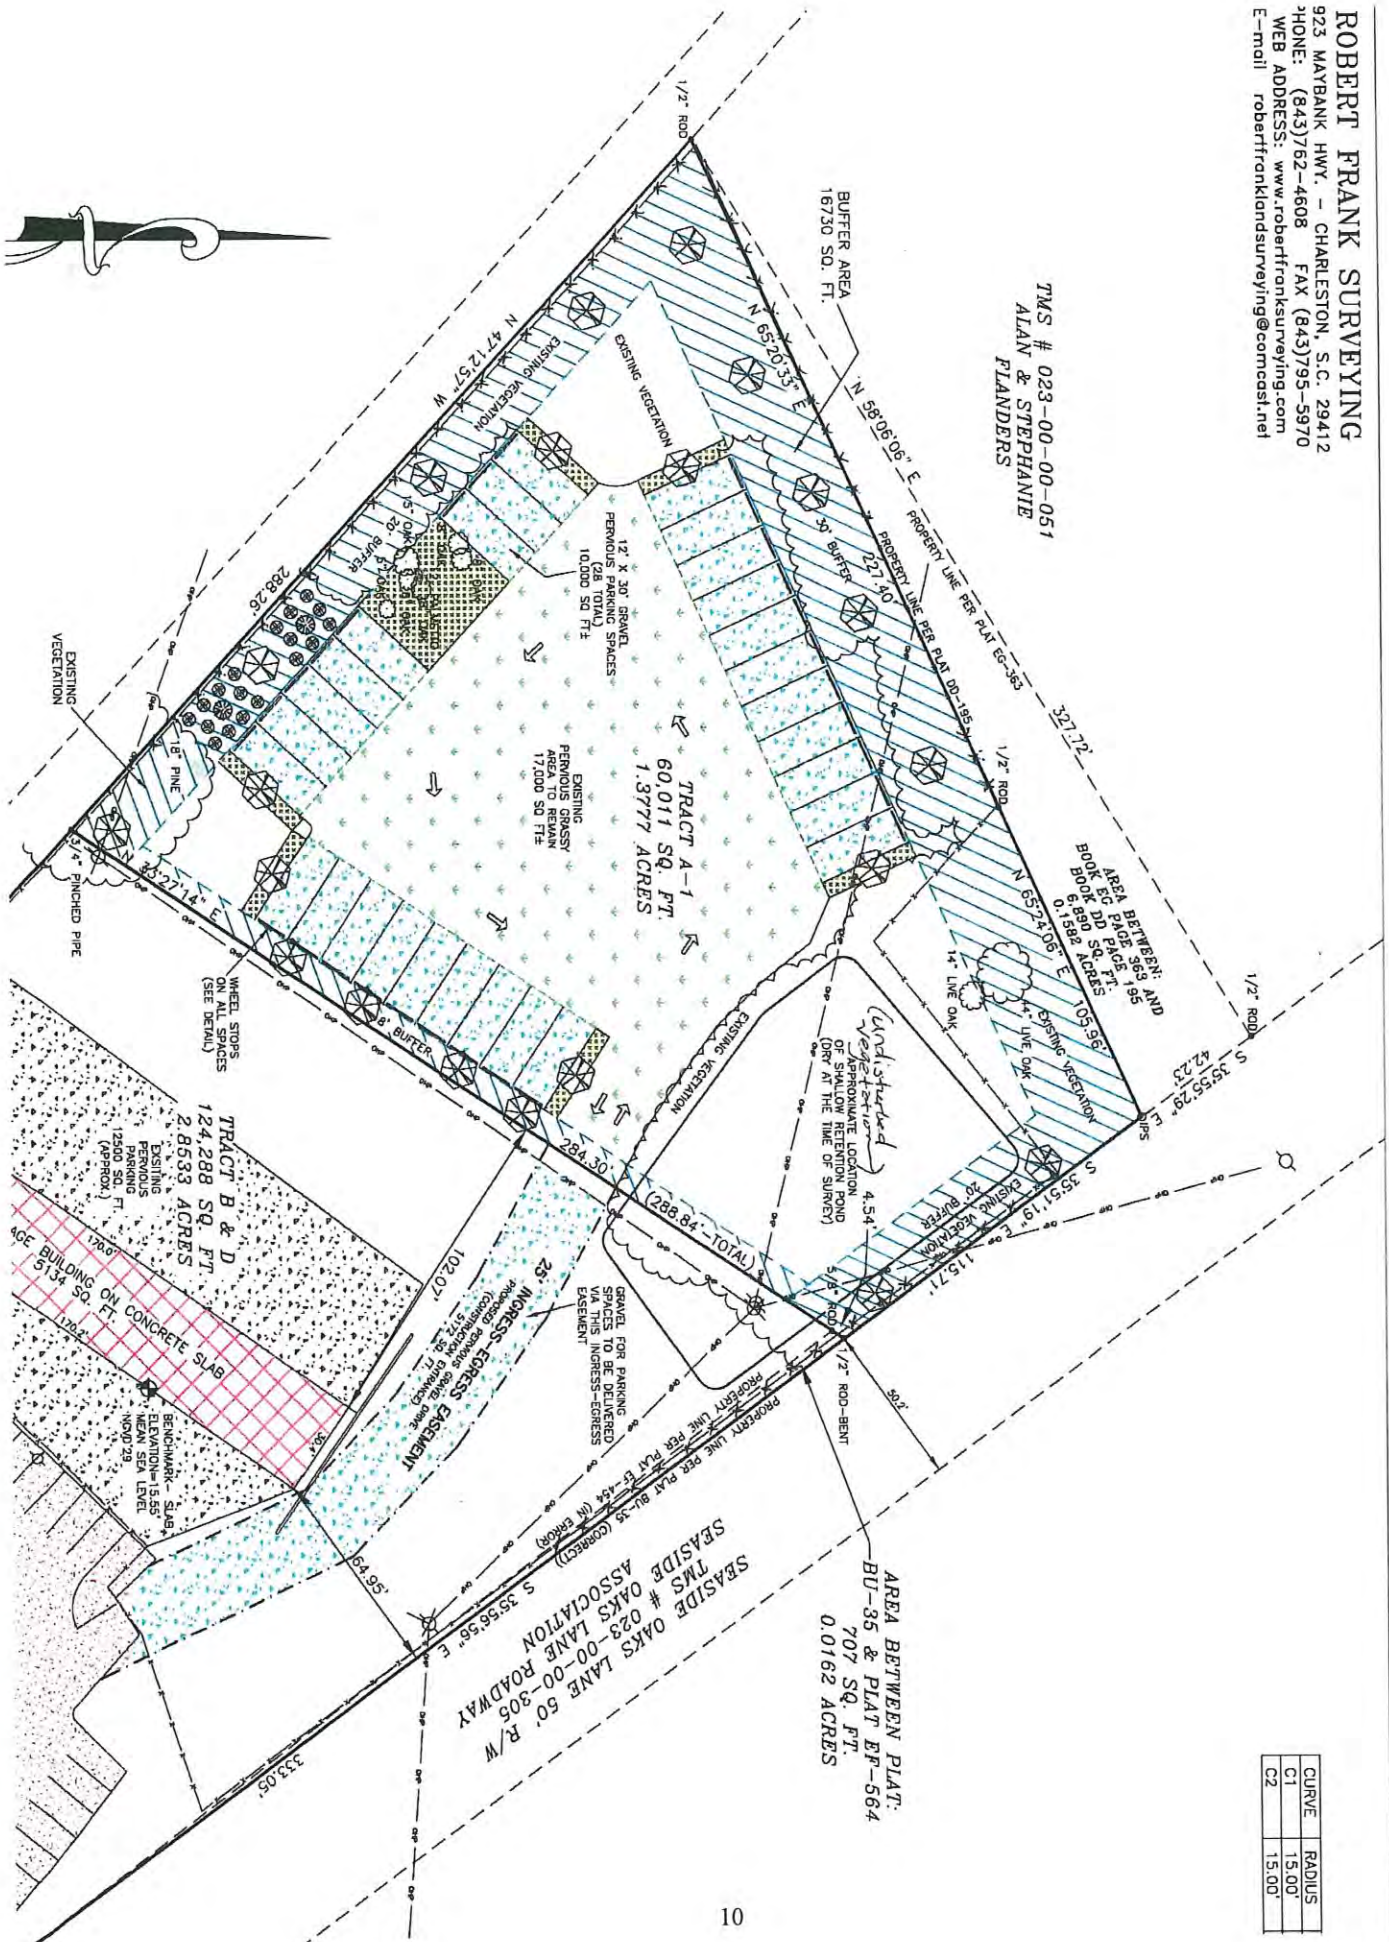

Applicant shall comply with all Charleston County Stormwater Ordinances and SCDHEC Regulatory requirements for pre and post construction water quality and quantity. Stormwater design, construction, and maintenance shall be in compliance with applicable approved Charleston County Stormwater permits. Utilization of approved and permitted Low Impact Design elements is encouraged within a comprehensive site Master Drainage Plan. *See* Charleston County Public Works Exhibits for Stormwater and Roads at pages 45 - 46.

 ZLDR ARTICLE 6.5.8

1. The United States Army Corps of Engineers has not made a determination of the presence or absence of wetlands and/or water of the United States on this property/these properties as of the date of approval/issuance of this plat.

2. Charleston County may require a jurisdictional determination by the United States Army Corps of Engineers on this property/these properties prior to the issuance of zoning permits for land development activities.

1. THIS APPROVAL IN NO WAY OBLIGATES THE COUNTY OF CHARLESTON TO MAINTAIN THIS INGRESS-EGRESS EASEMENT UNLESS IT HAS BEEN CONSTRUCTED TO COUNTY STANDARDS AND ACCEPTED FOR MAINTENANCE BY CHARLESTON COUNTY COUNCIL.
2. ANY FURTHER SUBDIVISION OF THE PARCEL, OR ROAD CONSTRUCTION OR EXTENSION OF THE EXISTING ROADS SHOWN HERETO SHALL REQUIRE COMPLIANCE WITH THE CHARLESTON COUNTY ZONING AND SUBDIVISION REGULATIONS, BEFORE CHARLESTON COUNTY ACCEPTS ANY DEDICATION OF ROADS INTO THE COUNTY ROAD SYSTEM. THE PROPERTY OWNER SHALL CONSTRUCT THE ROADS TO THE COUNTY OF CHARLESTON ROAD STANDARDS.
3. IT IS HEREBY EXPRESSLY UNDERSTOOD BY THE PROPERTY OWNER, DEVELOPER OR ANY SUBSEQUENT PURCHASER(S) OF ANY LOTS SHOWN ON THE PLAT THAT THE COUNTY OF CHARLESTON IS NOT RESPONSIBLE FOR THE MAINTENANCE OF THE STREETS, ROADS, COMMON AREAS, DRAINAGE SYSTEMS AND ANY OTHER MUNICIPAL SERVICES WHICH INCLUDE, BUT NOT LIMITED TO, GARBAGE DISPOSAL, PUBLIC WATER, PUBLIC SEWERAGE, FIRE PROTECTION OR EMERGENCY MEDICAL SERVICE.
4. BE AWARE THAT THE COUNTY OF CHARLESTON IS NOT RESPONSIBLE FOR DRAINAGE AND FLOODING PROBLEMS RELEVANT TO THE REAL PROPERTY AND EMERGENCY VEHICLES MAY HAVE DIFFICULTY ACCESSING THE PROPERTY.
5. NO PUBLIC FUNDS SHALL BE USED FOR THE MAINTENANCE OF THE ROADS SHOWN ON THIS PLAT.
6. EXISTING AND PROPOSED INGRESS/EGRESS EASEMENTS AND/OR PRIVATE RIGHTS-OF-WAY THAT PROVIDE ACCESS TO THE LOTS CREATED BY THIS PLAT MUST BE CONSTRUCTED, INSPECTED, AND APPROVED IN COMPLIANCE WITH THE CHARLESTON COUNTY ZONING AND LAND DEVELOPMENT REGULATIONS OR ORDINANCE IN THE LOCATION SHOWN ON THIS PLAT AND SHALL BE CONSTRUCTED FROM THEIR POINT OF CONNECTION TO AN EXISTING PUBLICLY OWNED AND MAINTAINED RIGHT-OF-WAY TO THE LOT(S) PROPOSED FOR DEVELOPMENT PRIOR TO THE ISSUANCE OF ZONING PERMITS FOR NEW CONSTRUCTION OF STRUCTURES. WITH THE EXCEPTION OF ADDITIONS/RENOVATIONS TO EXISTING STRUCTURES THAT ARE LEGALLY PERMITTED AND NEW CONSTRUCTION OF ACCESSORY STRUCTURES. IN ADDITION STREET SIGNS ON NAMED INGRESS/EGRESS EASEMENTS AND PRIVATE RIGHTS-OF-WAY SHALL BE INSTALLED AND INSPECTED IN COMPLIANCE WITH THE CHARLESTON COUNTY ZONING AND LAND DEVELOPMENT REGULATIONS OR ORDINANCE.

Subject: RE: Request for review for Letter of Coordination for zoning proposal for permeable surfaced parking spaces on 1.37 ac lot

Categories: Melinda's

Malena:

Thanks for forwarding the information again. I have reached out to Andrea Harris Long about this request.

We believe Site 7093 is not located where the pink dot is, and that the building that goes with this site number appears to be outside of either of the parcels outlined in yellow. It is on an adjacent parcel to the southwest. We believe Site 7093 is 511 Crane Road, Edisto Island.

So based on this limited information, it does not appear to us that a parking lot in the location you have indicated would impact that property.

Subject: FW: Request for review for Letter of Coordination for zoning proposal for permeable surfaced parking spaces on 1.37 ac lot

Good Morning Ms. Johnson,

Thank you so much for speaking with me this morning. As discussed, please find below the emails I was calling in reference to. Please feel free to contact myself or attorney Kelley if you have any questions or concerns. My direct dial is (843) 576-6348, and attorney Kelley's contact information can be found in her signature block below. If you feel that there is a more appropriate person to contact in this regard, I would greatly appreciate any advisement or direction you can provide.

Thank you again, and I hope you have a lovely weekend.

Sincerely,

Malena Dinwoodie
Paralegal

August 3, 2017
RE: TMS#023-00-00-294
Elizabeth Johnson
Deputy State Historic Preservation Officer
State Historic Preservation Office

Dear Ms. Johnson;

Andrea Harris-Long from the Charleston County Planning Dept. gave me your contact information, in order to request a Letter of Coordination for a zoning change on a 1.37 acre lot that I am proposing for a client on Edisto Island. Andrea said that I could take a screenshot of the area from your GIS Mapping website, which I have done. I've also attached it, and a site plan of the project and an aerial map for your review.

The project will be a permeable/gravel type surfaced 35-space parking area on the lot. It's located on Seaside Oaks Lane, Edisto Island, Charleston County. There will be no buildings or other structures built on the lot; just parking spaces.

Our subject lot is outlined on the aerial and highlighted on the site plan in yellow, and shows no historic structures or areas. I did see that *Historic Structure Site Number 7093* showed up on an *adjoining* piece of property, which is shown on the attached screenshot as well. I also drew a small pink dot on the aerial map to depict where 7093 is. Would that be anything that would preclude my client from establishing this parking lot? If not, would you please reply to let me know, and I will include your reply in my packet to the planning department? If it does, of course, please let me know that as well.

Thanks very much!

Best regards,
Melinda Kelley

Thanks for your reply. Based on your below list of requirement, since there will not be a mailbox on this lot (it is only for storage of non-livable boat/RVs), is it safe to assume that there will be no objection from the Post Office? I need to let the County know if there are any objections. Thanks again.

Best regards,
Melinda

Hi Melinda,

I do apologize it's taken this long to respond to your request.

The Postal Service will deliver mail to any customer provided the delivery points meet the following requirements:

- Roads or Streets must be passible.
- Roads or Streets must be non-private.
- Roads or Streets must be properly maintained.
- Mail carriers must not be subjected to loose or feral animals.
- A centralized location must be established to prevent the mail carrier from leaving the conveyance of the vehicle and traveling on foot a long distance. Location must be approved by Local Postal Official.
- The delivery point is established with safety considerations for mail carrier and customer.
- The delivery point offers a means to properly turn around without backing.
- The delivery point must not exceed half mile one way from the mail carrier's previous delivery point.
- The delivery apparatus must be postal approved.
- There must not be any barriers, gates, ravines, ditches or load limited bridges preventing the mail carrier from safely and efficiently conducting mail delivery.

It is highly recommended you or a representative contact the Charleston Postmaster, Mr. Robert Bergdorf for further dialogue on the selected area and discuss the mode of mail delivery and its location.

Thank you,

Bryan L. Cramer

RE: Letter of Coordination for Charleston County Planning

Dear Mr. Garvin:

The Charleston County Planning Dept. requires a Letters of Coordination from the Fire District, EMS, US Postal Service, among other agencies, in order to submit a planned development (PD) zoning request. I am submitting a PD request for a parking lot only; there will be no buildings on the lot.

I've provided the location and a sketch plan of the parking spaces below, and would ask if you would respond if there are any issues from a Fire Department standpoint. The property is located on Edisto Island, in Charleston County, SC. It is situated on Seaside Oaks Lane, behind 487 Highway 174. (Map attached)

Please let me know if there are any objections. A reply to this email will be fine.

Thanks very much,

Melinda Kelley

re: Letter of Coordination

Ms. Kelley,

The Charleston County Sheriff's Office acknowledges your client's intention to establish a boat/RV storage lot at **8142 Seaside Oaks Lane, Edisto Island, SC 29438**. We understand that access will be from Hwy 174 and a fence will surround the storage area.

If off-duty deputies are needed for security at this location, a signed written contract outlining the stipulations must be reviewed and signed by the coordinator at least ten (10) days prior to the event. This can be accomplished by applying online at:

<http://sheriff.charlestoncounty.org/off-duty-request.php>.

Please understand that *all* law enforcement matters will need to be reported to this agency. This can be accomplished by calling the **Charleston County Consolidated Dispatch Center** at **843-743-7200** or dialing **911 for emergencies**. Additional information can be accessed on our agency website at www.ccsso.charlestoncounty.org.

If you have any questions, feel free to contact this office via telephone or by email.

Attachments: Redfearn Site Plan BFranks office.pdf

Ms. Lucka;

Thank you for the early coordination concerning the proposed boat/rv storage site.

After reviewing the attached preliminary plan, our office has no objection to the proposed project. It appears there is no work proposed in SCDOT right of way. Since no work will be completed in SCDOT right of way, you are not required to apply for an encroachment permit.

If site conditions change and work will be required within our right of way, you must submit for an encroachment permit through our online EPPS program.

Please let me know if you have any questions.

Thank you!

Hi Ms. Fleming, thanks for your input. We will not be needing any improvements/ encroachment permit/curb cuts on DOI roadway for this boat/rv storage lot. Access is from an existing driveway through the adjoining business facing 174. I am attaching the site plan that shows where the easement/driveway connects the two lots. Please let me know if there are any issues or concerns. If there are no objections, I'll pass your reply along to the county planning department who is requesting this.

Thanks very much.

Malena,

Without the full site plan showing where the driveway ties into the roadway, I am not able to really comment or provide concurrence. It does not appear that the property will directly access SCDOT right of way. Unless you are doing any improvements within our right of way, you will not be required to apply for an encroachment permit.

If you have further questions, please let me know.

*** This is an EXTERNAL email. Please do not click on a link or open any attachments unless you are confident it is from a trusted source. ***

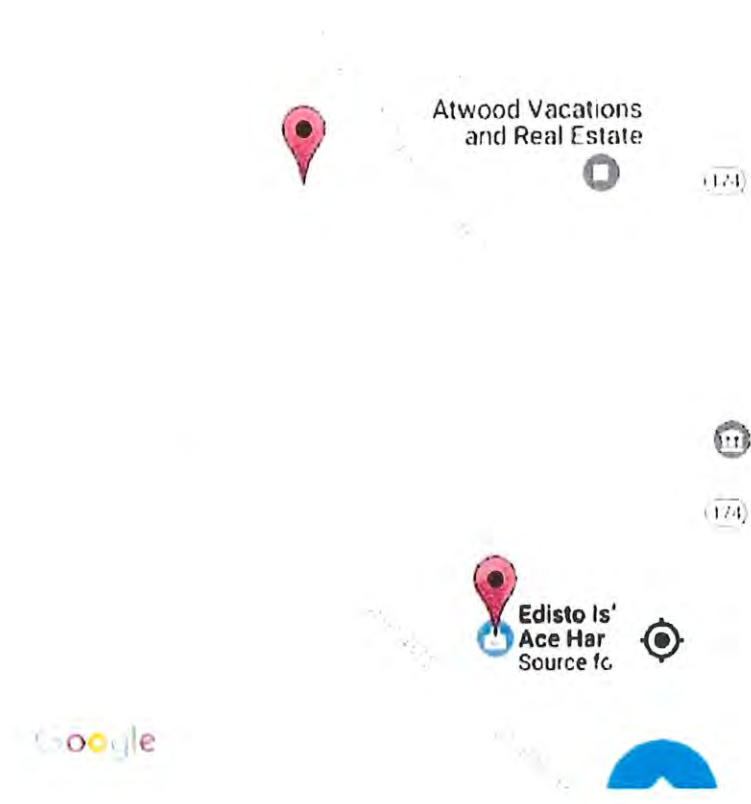

Dear Ms. Fleming,

We were given your name and email address by the Charleston County Zoning and Planning Department as a contact person for the SC Department of Transportation. I represent a client who will be submitting a Planned Development Application to Charleston County. My client hopes to use a 1.37 acre lot on Edisto Island that he owns for the purpose of boat and RV storage.

Based on the County's requirements for planned development applications, we must submit our plans for this development to the various government agencies to determine if the plans will impact your agency in anyway. Additionally, we will need to have "Letters of Coordination" from the several government offices indicating whether there will be any known issues with the planned development. I am writing you today to see if you would be able to review our plans that I have attached to this email to determine if there are any anticipated issues with the proposed plans from the SC DOT's standpoint. If after reviewing our plans you determine that there aren't any anticipated issues with the planned development, we would request that you or someone from your office provide by email or letter evidencing your determinations as to same.

The property is located on Edisto Island, in Charleston County, SC. It is situated on Seaside Oaks Lane, behind 487 Highway 174. (Map included below.) There will be no buildings on the lot, and no mailbox. The lot is only going to be used as a storage lot.

If the attached plans do not present a problem or issue, would you be able to send back a letter indicating that? We would greatly appreciate your assistance in this matter. Please let me know if you would like any further information or if there is a more appropriate person in your office to contact with this request.

Sincerely,

Malena,

Please note that SCE&G is not a government agency that reviews the impact of a project. Also, the letters of coordination that we send are to confirm that we have adequate electrical capacity to serve a new facility, which is not applicable here.

A technician has visited the site and confirmed that our lines are in compliance with requirements, the clearance of the neutral line crossing the property is 18 feet. If the customer decides to install a floodlight we will be happy to handle that.

Subject: Request to Review Plan and Letter of Coordination for Planned Development Application

***This is an EXTERNAL email from Malena Dinwoodie (MDinwoodie@finkellaw.com). Please do not click on a link or open any attachments unless you are confident it is from a trusted source.

Dear Ms. Thompson and Mr. Garvin,

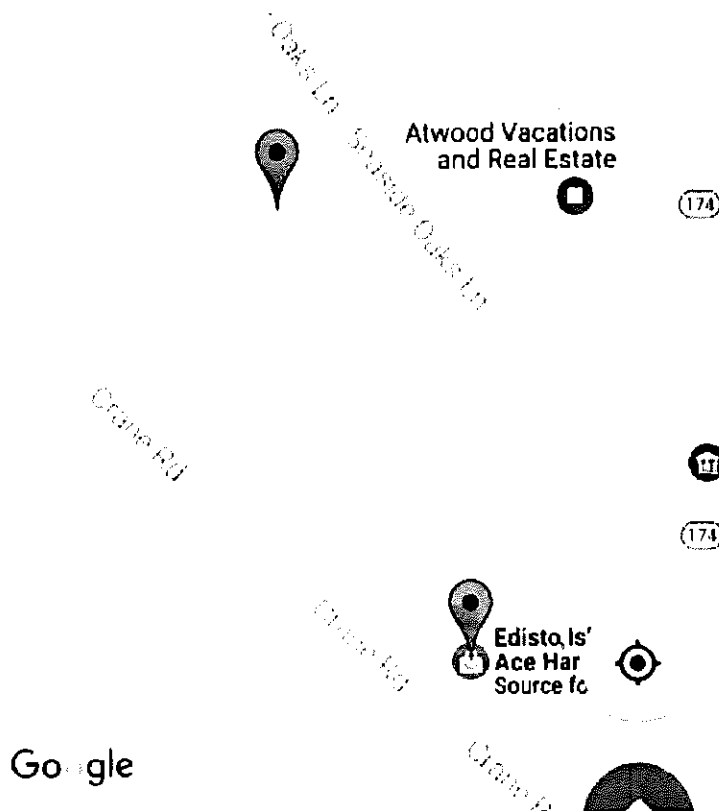

We were given your names and email addresses by the Charleston County Zoning and Planning Department as a contact person for SCE&G. Attorney Melinda Kelley represents a client who will be submitting a Planned Development Application to Charleston County. Our client hopes to use a 1.37 acre lot on Edisto Island that he owns for the purpose of boat and RV storage.

Based on the County's requirements for planned development applications, we must submit our plans for this development to the various government agencies to determine if the plans will impact your agency in anyway. Additionally, we will need to have "Letters of Coordination" from the several government offices indicating

whether there will be any known issues with the planned development. I am writing you today to see if you would be able to review our plans that I have attached to this email to determine if there are any anticipated issues with the proposed plans from SCE&G's standpoint. If after reviewing our plans you determine that there aren't any anticipated issues with the planned development, we would request that you or someone from your office provide by email or letter evidencing your determinations as to same.

The property is located on Edisto Island, in Charleston County, SC. It is situated on Seaside Oaks Lane, behind 487 Highway 174. (Map included below.) There will be no buildings on the lot, and no mailbox. The lot is only going to be used as a storage lot.

If the attached plans do not present a problem or issue, would you be able to send back a letter indicating that? We would greatly appreciate your assistance in this matter. Please let me know if you would like any further information or if there is a more appropriate person in your office to contact with this request.

Sincerely,

Malena Dinwoodie

Regulatory Division

Mr. Bob Redfearn
Palmetto Landing of SC, INC
8830 Shellhouse Road
Edisto Island, South Carolina 29438

Dear Mr. Redfearn:

This letter is in response to your request for an Approved Jurisdictional Determination (SAC-2015-01448) received in our office on November 6, 2015, for a 1.37-acre site located at 8142 Seaside Oaks Lane in Edisto Island, Charleston County, South Carolina (Latitude: 32.5226°N, Longitude: 80.3014°W). The site in question is depicted on the enclosed sketch prepared by this office entitled "Seaside Oaks" and dated April 07, 2016.

Based on a review of aerial photography, topographic maps, National Wetlands Inventory maps, and soil survey information, it has been determined that the referenced property does not contain any wetlands and/or other waters of the United States and, as such, Department of the Army authorization will not be required for mechanized land clearing, excavation, or the placement of dredged or fill material on this site.

Please be advised that this determination is valid for five (5) years from the date of this letter unless new information warrants revision before the expiration date. This Approved Jurisdictional Determination is an appealable action under the Corps of Engineers administrative appeal procedures defined at 33 CFR 331. The administrative appeal options, process and appeals request form is attached for your convenience and use.

This delineation/determination has been conducted to identify the limits of Corps of Engineers Clean Water Act jurisdiction for the particular site identified in this request. This delineation/determination may not be valid for the wetland conservation provisions of the Food Security Act of 1985. If you or your tenant are USDA program participants, or anticipate participation in USDA programs, you should request a certified wetland determination from the local office of the Natural Resources Conservation Service, prior to starting work.

Your cooperation in the protection and preservation of our navigable waters and natural resources is appreciated. In all future correspondence concerning this matter, please refer to file number SAC-2015-01448. A copy of this letter is being forwarded to certain State and/or Federal agencies for their information.

If you have any questions concerning this matter, please contact Warren H. May III,
Project Manager, at 843-329-8033.

Sincerely,

Courtney M. Stevens
Watershed Manager

RE: PALMETTO LANDING BOAT AND RV STORAGE
TMS # 023-00-00-294

Dear Ms. Kelley:

We have reviewed the draft Palmetto Landing Boat and RV Storage Planned Development Application document, submitted March 15, 2019, for parking and storage of boats and recreational vehicles located at 8142 Seaside Oaks Lane. At present, this letter represents sufficient coordination with the Public Works Stormwater Division in order to continue the revised planned development rezoning process for the property.

As long as the proposed operations development is in compliance with the Charleston County Stormwater Program Permitting Standards and Procedures Manual you should be able to obtain a permit. Additional review, coordination, and approval by the Public Works Department will be required during the County Stormwater permitting review and process.

Sincerely,

Frank Pandullo, P.E., PWLF
Deputy Director & Stormwater Utility Manager

RE: PALMETTO LANDING BOAT AND RV STORAGE
TMS # 023-00-00-294

Dear Ms. Kelley:

This letter acknowledges that you have notified Charleston County Public Works regarding your intent to develop a boat and RV storage area at 8142 Seaside Oaks Lane. The Public Works Department has reviewed the proposed Planned Development Document and is prepared to review your site plans.

Please continue to submit documentation directly to the County Zoning and Planning Department other than specific encroachment permit applications for County right-of-way and drainage easements. These applications should be provided to the Public Works Department to the attention of Mr. Herbert Nimz at the address listed above.

Sincerely,

James R. Neal, PE
Director of Public Works

MEMORANDUM

TO: Planned Development Applicants

FROM: Eric Meyer, Chairman, Charleston County Planning Commission

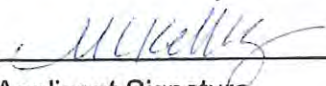

DATE: March 14, 2011

SUBJECT: Community Outreach and Planned Development Applications

We highly recommend that applicants for zoning change requests to the Planned Development (PD) Zoning District work with the community to inform them of the request, in order to potentially gain their support for such projects.

Your signature below indicates that you have read and understood this recommendation.

Dear Mr. Redfearn,

The Edisto Island Community Association (EICA) is most pleased to endorse your application for a Planned Unit Development for the use for a boat storage business. The board unanimously supports your application.

We appreciate the time and expense that was taken to develop a plan that places your business within the commercial node, limited the use of the parcel to the stated purpose of boat storage, that was responsive to the community's concerns and was sensitive to the natural context that the proposed development that would be sited adjoining Scenic Highway 174. Further, any alternative future uses can be reviewed by the community and the Planning Commission. Moreover, your close proximity to the existing boat launch will provide traffic reduction on Highway 174 that as you know, can be quite heavy during the boating months.

Your approach and execution is exemplary. We wish you success in your endeavor.

Sincerely,

Rev. Abraham Gadsden
President

Attachment: Site Plan

"Providing information about the political, social, economic and environmental issues that directly relate to the development of Edisto Island"

Melinda Lucka

From: James Brailsford <jmbrailsford@bellsouth.net>
Sent: Monday, April 17, 2017 1:00 PM
To: Melinda Lucka
Cc: Andrea N. Pietras; Barbara Gould; Apple Computer Inc.; Lloyd Bray
Subject: Edisto Island Preservation Alliance (re: 1.37 acre lot on Seaside Oaks Lane)

Dear Melinda,

Thank you for sending us the site plan and other documentation. The board has considered the information and asked me to send you this response.

The board of directors of the Edisto Island Preservation Alliance would object to any request to change the zoning of your client's lot from AGR to commercial. We would also object to any PD zoning that could be construed as permitting the use of the property as a motor vehicle parking lot for any present or future ancillary businesses. However, we have no objection to the proposed PD zoning that you have described so long as the new permitted use is clearly restricted to boat and trailer storage. The board appreciates your meeting with the neighbors and accommodating them with the screening, access, and signage provisions.

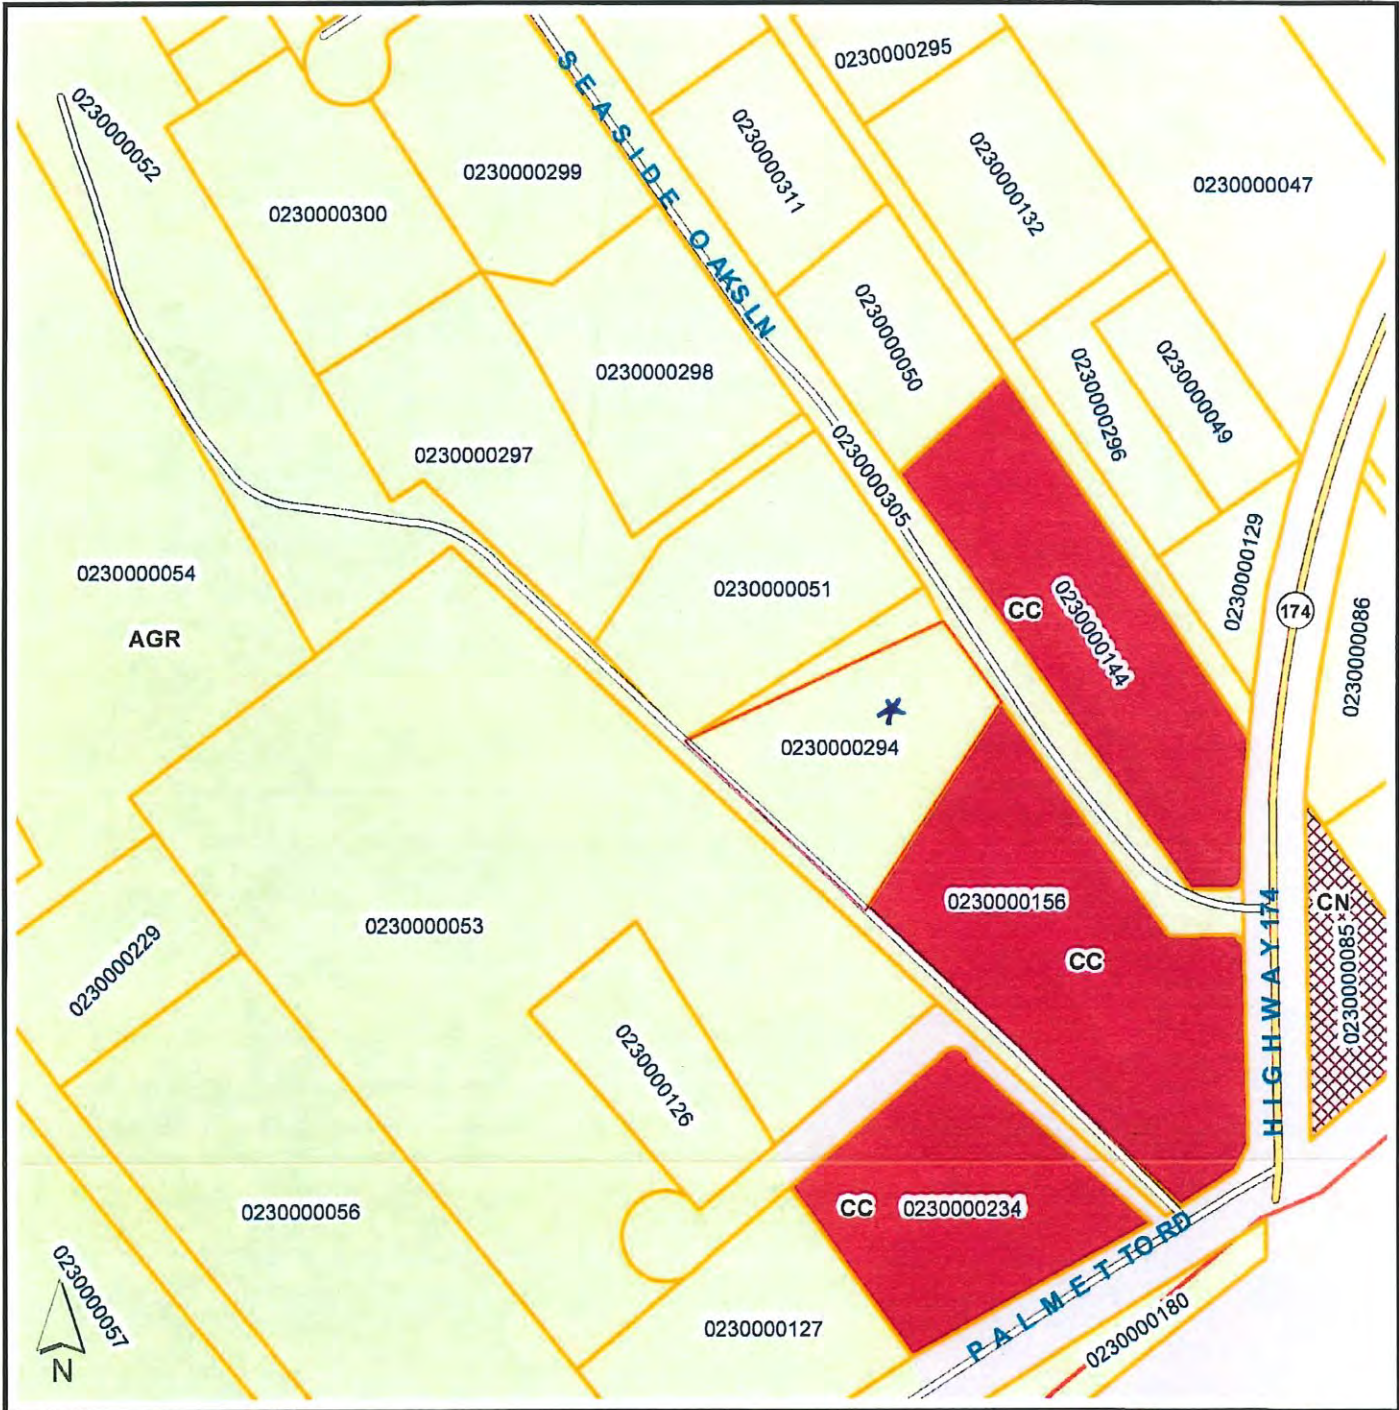

So long as the only use permitted by the PD that would not be permitted by AGR is boat and trailer storage as you described, and so long as it includes the screening, access, and signage provisions that you worked out with the neighborhood, we do not plan to oppose the change. Please furnish us with a copy of the final PD documentation showing that the permitted use is so limited. By copy of this email we are advising Charleston County Planning of our position and requesting that they keep us informed.

**CHARLESTON COUNTY ZLDR
SECTION 9.3.4**

Palmetto Landing
Edisto Island, S.C.

§9.3.4 Location of Required Parking

A. On-Site Parking

1. Except as expressly stated in this Section, all required off-street parking spaces must be located on the same lot as the principal use and shall be arranged and laid out so as to ensure that no parked or maneuvering vehicle will encroach upon a sidewalk, public right-of-way or property line.
2. Parking lots in Office (O) and Commercial (C) districts containing more than ten parking spaces shall be located to the side or rear of the principal structure's front facade or within a courtyard surrounded by a structure on at least three sides.

B. Off-Site and Shared Parking

Off-site parking is defined as the required parking not located on the parcel which the principal use is located. Shared parking is parking for uses with different operating hours or peak business periods that share required off-street parking spaces. Shared parking may or may not be off-site parking. Off-site and shared parking are allowed provided they meet the following standards. If any one of the following applicable standards cannot be met, Special Exception approval shall be required:

1. A maximum of fifty percent (50%) of the required parking spaces may be off-site however, off-site parking may not be used to satisfy the off-street parking standards for residential uses (except for guest parking), restaurants, convenience stores or other convenience-oriented uses unless approved as part of a mixed use development. Required parking spaces reserved for persons with disabilities shall not be located off site.
2. Shared or off-site parking must be located within 600 feet from the primary entrance of the use served, unless shuttle bus service is provided to the remote parking area. Shared or off-site parking spaces may not be separated from the use that it serves they serve by a street right-of-way with a width of more than 80 feet, unless a grade-separated pedestrian walkway is provided, or other traffic control or shuttle bus service is provided to the remote parking area.
3. An applicant requesting shared parking shall submit a shared parking analysis to the Planning Director that clearly demonstrates the feasibility of shared parking. The shared parking analysis must be approved by the Planning Director and made available to the public. It must address, at a minimum, the size and type of the proposed development, the composition of tenants, the anticipated rate of parking turnover and the anticipated peak parking and traffic loads for all uses that will be sharing off-street parking spaces. Approvals will only pertain to the specific uses addressed in the analysis and any change in use(s) will require a new shared parking analysis.
4. Off-site parking areas serving uses located in Nonresidential zoning districts must be located in non-residential zoning districts. Off-site parking areas serving uses located in Residential or Agricultural zoning districts may be located in Residential, Agricultural or Nonresidential zoning districts.
5. In the event that off-site parking area is not under the same ownership as the principal use served, a written agreement will be required. An attested copy of the agreement between the owners of record must be submitted to the Planning Director for recording on forms made available in the Planning Department. Recording of the agreement with the Register of Mesne Conveyance must take place before issuance of a zoning permit, building permit or Certificate of Occupancy for any use to be served by the off-site parking area. An off-site parking agreement may be revoked only if all required off-street parking spaces will be provided in accordance with this Article.
6. Shared parking areas must be connected by a continuous network of sidewalks and pedestrian crosswalks.

Effective on: 11/20/2001, as amended

**CHARLESTON COUNTY ZLDR
SECTION 9.3.6**

Palmetto Landing
Edisto Island, S.C.

§9.3.6 Parking Space and Parking Lot Design

A. Parking Lot Design

Dead end type of parking layouts that cause or contribute to poor vehicular circulation will not be allowed unless all other site configurations and parking options of the required number of parking spaces have been exhausted.

B. Aisle Widths and Parking Space Dimensions

Drive aisle widths and parking space dimensions shall comply with the standards in the following table. Twenty percent (20%) of the minimum number of required parking for a development may utilize compact and sub-compact vehicle parking dimensions. These dimensions shall be a minimum of 7 feet 6 inches x 15 feet (7'6" x 15') and clearly marked for compact vehicles only.

Table 9.3.6.B, Aisle Widths and Parking Space Dimensions				
α°	Stall Width A	Stall Depth B	Aisle Width C	Skew Width D
60°	8' 0"	19'7"	19'0"	9'3"
	8' 6"	18'0"	18' 0"	9' 10"
	9' 0"	17' 0"	17' 0"	10' 5"
			*One Way	
45°	8' 0"	18'5"	12'0"	11'4"

	8' 6"	18'0"	25' to 29'	
	9' 0"	18' 0"	23' to 27'	
			*Two Way	

Note: Two Way drive aisles shall always require a minimum width of 23 feet.

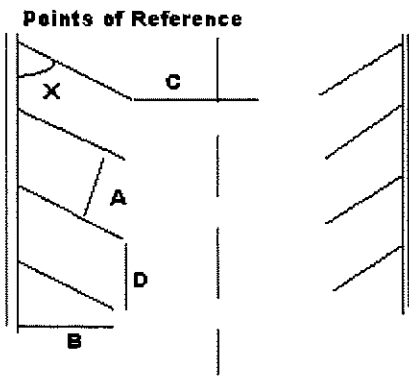

Figure 2

C. Parking Lot Landscaping

See ARTICLE 9.5 of this Chapter.

D. Markings and Surface Treatment

1. In paved parking areas, each off-street parking space shall be identified by surface markings at least four inches in width. Markings shall be visible at all times. Such markings shall be arranged to provide for orderly and safe loading, unloading,

parking and storage of vehicles. In unpaved parking lots, all parking spaces must have a curb stop (minimum height of four inches) to delineate the location of the space and to prevent the encroachment of parking onto adjoining properties, rights-of-way, or landscaped areas.

2. One-Way and Two-Way accesses into required parking facilities shall be identified by directional arrows.
3. Unpaved parking lots must have an all weather surface such as gravel, slag or other pervious surface, not including asphalt shingles. Entrance and exit drives serving unpaved parking lots accessed from a paved street must be paved from the edge of the street pavement to a distance of 20 feet into the property. No more than 120 percent of the required number of off-street parking spaces may be paved and no more than 70 percent of all developable land within parcels may be paved, unless approved by the Planning Director.

E. Access

1. Required parking spaces shall not have direct access to a street or highway. Access to required parking spaces shall be provided by on-site driveways. Off-street parking spaces shall be accessible without backing into or otherwise reentering a public right-of-way.
2. Parking lot entrance and exit drive curb cuts will not be more than 30 feet in width. Entrances or exits which include a median strip to separate traffic flow in opposite directions may be expanded to 60 feet. Curb cuts shall be allowed in accordance with the following table:

Table 9.3.6.E, Access	
LENGTH OF FRONTAGE	MAXIMUM NUMBER OF DRIVEWAYS
250 feet or less	1*
251 feet to 1,500 feet	2
1,500 feet or more	3

* On frontages of 250 feet or less, a pair of one-way driveways may be substituted only if the internal circulation on the site is compatible with the one-way driveways and wrong-way movements on the driveways are rendered impossible or extremely difficult for motorists. Refer to the South Carolina Department of Transportation's Access and Roadside Management Standards Manual for recommended spacing of driveways based on speed of traffic.

3. Entrance and exit drives shall be located at least 100 feet from the edge of the right-of-way of any street intersection. If the subject lot has less than 100 feet of frontage, the Planning Director shall be authorized to alter these requirements. Suitable provisions will be made to prevent ingress or egress at other than designated entrance or exit drives.
4. The Planning Director shall be authorized to require that access to dwelling units comply with the International Fire Code, as adopted by County Council.
5. Shared access between parcels may be allowed with written agreement among all owners of record. An attested copy of the access agreement between the owners of record must be submitted to the Planning Director for recording on forms made available in the Planning Department. Recording of the agreement with the Register of Mesne Conveyance must take place before issuance of a zoning permit or certificate of occupancy for any use to be served by shared access. Any shared access must meet all dimensional requirements of this Ordinance and any applicable SCDOT requirements.

Effective on: 11/20/2001, as amended

**CHARLESTON COUNTY ZLDR
SECTION 9.11.3.C**

Palmetto Landing
Edisto Island, S.C.

9.11.3 Special Signs

TABLE 9.11.3.A SPECIAL SIGNS				
Type	Maximum Size	Maximum Number	Maximum Height	Minimum Setback
Subdivision/Multi-Family I.D. Signs	32 sq. ft.	2 per entrance	12 ft.	5 ft.
Directional	3 sq. ft.	Unlimited	4 ft.	N/A
Flags	60 sq. ft.	3 per zoning lot	35 ft. or 15 ft. above highest point of roof	N/A
Civic/Institutional	100 sq. ft. 32 sq. ft. in Residential or Agricultural uses	1 per zoning lot	12 ft. Sign must have opaque background except the marquee. Marquee cannot exceed 25% of total sign size	5 ft.
Home Occupations	3 sq. ft.	1 per zoning lot (free standing or wall mounted)	3 ft.	5 ft.

Maximum size, number, location and height of special signs shall conform with Table 9.11.3.A and the following standards:

A. Flags Used As Signs

1. A permit shall be required for the installation of all flag poles or flag display devices erected on lots zoned for multi-family, office, commercial, or industrial use or occupied by a multi-family, office, commercial, or industrial use.
2. Applicants must submit with the permit application a scaled site plan giving the location of all flag poles and complete dimensional and installation engineering data.
3. Applicants must provide documentation of minimum clearance from electric, telephone or cable TV lines as certified by the proper utility prior to issuance of permit, or installation.
4. Maximum size and number of flags used as signs, and height of flag poles shall conform with Table 9.11.3.A of this Chapter.
5. The American flag and the flag of the State of South Carolina are exempt from the provisions for maximum size of flags and maximum size of flagpoles in Table 9.11.3.A of this Chapter.

B. Sandwich Board/Sidewalk Sign

A permit may be issued for a maximum of two sandwich board signs per lot or business provided the signs comply with the following criteria:

1. The sign is located within the Commercial zoning districts on the subject parcel or in front of the business being advertised.
2. It is a maximum of three (3) feet in height with a maximum of nine (9) square feet per sign face.
3. The sign is erected only during the hours of operation of the subject business and must be removed daily after close of business.
4. The sign is not located within any right of ways or within any pedestrian ways which would impede or interfere with vehicular or pedestrian use of roads, sidewalks or seating areas.

C. Shared Free Standing Signs

1. Off-premises shared free standing signs are allowed in the Commercial and Industrial zoning districts for the advertisement and identification of two or more businesses or residential developments located on separate parcels.
2. One shared sign is allowed at the location of a jointly shared curb cut/entry drive.
3. Multiple businesses may participate on multiple shared signs; however, a business that participates on a shared free standing sign shall not be allowed to erect a single tenant on-premise free-standing sign.
4. Participating businesses must either share a property boundary on at least one (1) side or be part of an approved multi parcel development.
5. The size of a shared sign face may be one and one half (1.5) times the size allowed by the accumulated building square footages of the subject businesses advertised as defined in Table 9.11.2. Shared free standing signs must meet all other setback and dimensional standards for Non-Residential Free Standing Signs including all architectural standards and overlay district requirements of this Ordinance.

**CHARLESTON COUNTY ZLDR
ARTICLE 9.4**

Palmetto Landing
Edisto Island, S.C.

ARTICLE 9.4 TREE PROTECTION AND PRESERVATION

§9.4.1 General

A. Findings

Trees are an essential natural resource, an invaluable economic resource, and a priceless aesthetic resource. Trees play a critical role in purifying air and water; providing wildlife habitat, and enhancing natural drainage of stormwater and sediment control. They also help conserve energy by providing shade and shield against noise and glare. Trees promote commerce and tourism by buffering different land uses and beautifying the landscape. The Tree Protection and Preservation regulations of this Article are intended to enhance the health, safety and welfare of Charleston County citizens.

B. Applicability and Exemptions

1. Applicability

The provisions of this Article in their entirety shall apply to all real property in unincorporated Charleston County, except as otherwise expressly exempted.

2. Exemptions

- a. Single family detached residential lots of record shall be exempt from all provisions in this Article except for the Grand Tree documentation, protection and replacement provisions. This exemption does not include applications for Major or Minor Subdivisions for which landscape buffers may be required per Section 9.5.4.
- b. The Planning Director shall be authorized to modify or reduce the standards of this Article for commercial nursery operations.
- c. This Article shall not restrict public utilities and electric suppliers from maintaining safe clearance around existing utility lines, and existing easements in accordance with applicable state laws. Siting and construction of future gas, telephone, communications, electrical lines or other easements shall not be exempt from the provisions of this Article.
- d. Removal of trees for the purpose of conducting "bona fide forestry operations" shall be exempt from the provisions of this Article except for removal of Live Oak species of Grand trees.
- e. Removal of trees for the purpose of establishing bona fide agricultural uses, as specified in Section 3.8.2A of this Ordinance, shall be exempt from the provisions of this Article except for the Grand Tree documentation, protection and replacement provisions.
- f. Removal of trees for the purposes of maintaining safe clearance for aircraft as required by federal law or the establishment of facilities exclusively dedicated to aviation operations are exempt from this Article.
- g. Removal of trees on properties in the Industrial Zoning District is permitted pursuant to the following conditions:
 - i. Tree removal cannot occur prior to site plan approval;
 - ii. This exemption shall not apply to Live Oak species of Grand Trees or any protected trees within required buffers and parking lots; and
 - iii. Mitigation of removed trees, as stated in this Section, is required. Staff shall approve the mitigation of such trees in accordance with Section 9.4.6 of this Ordinance.

3. Partial Exemptions for SCDOT and CCPW

The South Carolina Department of Transportation (SCDOT) and Charleston County Public Works (CCPW) shall be exempt from the provisions of this Article except the following:

- a. All trees species measuring 6 inches or greater DBH located in right-of-ways along Scenic Highways as designated in this Ordinance shall be protected and require a variance from the Charleston County Board of Zoning Appeals for removal per Article 9.4.5B and 9.4.6.
- b. Grand Tree Live Oak species in all present and proposed right-of-ways and easements shall be protected and require a variance from the Charleston County Board of Zoning Appeals for removal per Article 9.4.5.B and 9.4.6.
- c. All Grand Trees other than Live Oak species in all present and proposed right-of-ways and easements not located on a Scenic Highway are protected but may be permitted to be removed administratively when mitigated per Article 9.4.6.
- d. SCDOT shall be exempt from the tree protection and preservation requirements of this Ordinance within public rights-of-way.

C. DEFINITION OF "TREE REMOVAL"

For the purpose of this Article, the term "tree removal" shall include, but not be limited to, damage inflicted to the root system by machinery; girdling; storage of materials and soil compaction, changing the natural grade above or below the root

system or around the trunk; damage inflicted on the tree permitting fungus infection or pest infestation; excessive pruning; excessive thinning; paving with concrete, asphalt or other impervious material within such proximity as to be harmful to the tree; or any act of malicious damage to a tree. Excessive pruning or thinning shall be pruning or thinning that exceeds more than 25 percent of the leaf surface on both the lateral branch and the overall foliage of a mature tree that is pruned within a growing season. Additionally, one-half of the foliage of a mature tree is to remain evenly distributed in the lower two thirds of the crown and individual limbs upon completion of any pruning.

D. MEASUREMENTS AND DEFINITIONS

1. Diameter Breast Height

Diameter Breast Height is used for measuring all trees greater than 12-inch caliper. The Diameter Breast Height (DBH) of a tree is the total diameter, in inches, of a tree trunk or trunks measured 4½ feet above existing grade (at the base of the tree). In measuring DBH, the circumference of the tree shall be measured with a measuring tape designed specifically to calculate diameter. A standard measuring tape may be used to measure diameter when the circumference is divided by 3.14. If a tree trunk splits at ground level and the trunks do not share a common base (separated by earth at natural grade), then each trunk shall be measured as a separate tree. If a multi-trunk tree splits below the 4.5 foot mark and the trunks share a common base, all trunks shall be measured separately, added together, and count as one tree. Any trunk measuring less than 8 inches DBH is not included in the calculation.

2. Caliper

Caliper is the diameter of a tree trunk measured six inches above the ground on trees with calipers of four inches or less. For trees between four-inch and 12-inch caliper, the trunk is measured 12 inches above the ground.

3. Grand Tree

Any tree measuring 24 inches or greater diameter breast height (DBH) except pine tree and Sweet Gum tree (*Liquidamber styraciflua*) species. All Grand Trees are prohibited from removal unless a Grand Tree Removal Permit is issued or if the removal is part of an approved Bona Fide Forestry Operation.

4. Protected Trees

Any tree on a parcel with a diameter breast height of eight inches or greater prior to development and all trees within required buffers or required landscape areas. Limited removal is allowed only when specified by the provisions of this Ordinance.

Effective on: 7/24/2018, as amended

§9.4.2 Administration

A. Zoning Permit Required

1. Tree Removal

Removal of required trees is prohibited prior to the issuance of a Zoning Permit by the Planning Director. Zoning Permits will be issued only after a tree plan is approved by the Planning Director, as outlined below.

2. Excess Canopy (Limb) Removal

- a. Removal of three or more limbs with an individual diameter of six inches or greater shall require a Zoning Permit.
- b. Removal of any size limbs which contribute to more than one hundred continuous linear feet of canopy over public roadways shall require Variance approval from the Board of Zoning Appeals. This requirement shall not preclude the SCDOT, CCPW or other entities from maintaining height clearances of 14' or less and width clearances within designated travel ways and from removing unprotected trees along right-of-ways for road widening projects.

B. Documentation

Tree plans, prepared by a licensed registered surveyor, civil engineer or landscape architect shall be required on all non-exempt parcels before any zoning permits are issued.

Effective on: 11/20/2001, as amended

§9.4.3 Tree Plans and Surveys

A. General

Tree plans of the same scale as, and superimposed on, a development site plan or preliminary plat shall include location, number, size (DBH), and species with a scaled graphic representation of each Grand Tree, canopy size and shape, and the trunk location. All required tree surveys shall include the name, phone number, address, signature, and seal of a licensed surveyor, landscape architect, or civil engineer registered in the State of South Carolina. The survey shall include all trees to be protected or preserved, and those scheduled to be removed, including dead and damaged trees. In cases where a

previously approved recorded plat is utilized for the purpose of tree plans the name, address, phone number, signature and seal of the licensed landscape architect, civil engineer, forester or surveyor, registered in the State of South Carolina shall be provided. A scaled infrared or high resolution black and white aerial photograph or print of equal quality may be substituted in cases where the Planning Director determines that it would provide the same information as a tree plan. However, all Grand Trees within 40 feet of proposed construction and land disturbance areas and trees within required buffers must be surveyed and mapped.

B. Major and Minor Subdivision Preliminary Plats

Refer to Section 8.4.2.A.4 Preliminary Plat Application in the Subdivision Regulations of CHAPTER 8 of this Ordinance.

C. Commercial, Industrial and Multi-Family Parcels

1. All tree surveys must show the location, number, size and species of all trees 8 inches or greater DBH (Diameter Breast Height) including those scheduled to be removed.
2. When there are no trees 8 inches or greater DBH, documentation of this fact shall be provided from a registered surveyor, engineer or landscape architect.

[Commentary: Assistance in tree identification and condition should be provided by a forester or qualified arborist.]

D. Single Family Detached Residential Parcels

1. Single family detached residential parcels shall show all Grand Trees within the area of construction and land disturbance and in conjunction with the subdivision regulations of this Ordinance at the time a zoning or building permit application is made.

Effective on: 11/20/2001, as amended

§9.4.4 Required Tree Protection

A. General

All Grand Trees and any other trees required to remain on a site as outlined in this Ordinance must be protected during construction and development of the parcel. Tree protection must be shown on all development plans prior to site plan approval. A site inspection of the tree barricades must be scheduled by the applicant with the Planning Department for approval prior to the issuance of permits or the start of development activities.

Prior to issuance of a zoning permit, a pre-construction planning conference for tree preservation is required on site with the Planning Director's representative, the applicants, and any parties deemed appropriate for the purpose of determining if there is a need for additional tree protection techniques and for designating placement of tree barricades, construction employee parking, temporary construction office and dumpsters.

B. Tree Protection During Development and Construction

Protective barricades shall be placed around all required trees in or near development areas on all zoning parcels, prior to the start of development activities. These barricades, constructed of wood or plastic fencing or other approved materials shall be erected in accordance with standards by the Planning Director and placed beneath the canopy drip line or one and one-half feet times the DBH of the tree. Other protective devices or construction techniques may be used as approved by the Planning Director. The barricades shall remain in place until development activities are complete. The area within the protective barricade shall remain free of all building materials, dirt, fill, or other construction debris, vehicles, and development activities. All required trees are also subject to the provisions of Section 9.5.6 of this Chapter and subject to the enforcement criteria of CHAPTER 11.

C. Partial Exception for Limited Clearing

Limited clearing and grubbing may be authorized by the Planning Director prior to the installation of protective tree barricades on sites that exhibit unusually heavy undergrowth where access to the interior of the site and its protected trees would be otherwise highly impractical. Limited clearing shall be for the express purpose of accessing the property and protected trees to erect the required tree protection and silt fencing. For the purposes of this Article, limited clearing shall be clearing done with hand tools, push or walk behind equipment or lightweight bush-hog type equipment designed specifically for brush and undergrowth clearing that is not capable of removing vegetation greater than 3 inches in diameter. Under no circumstances will metal tracked bulldozers, loaders, or similar rider/operator types of equipment be allowed on the site until the protective barricades are erected and a zoning permit is issued.

D. Separation of Trees from Pavement, Grading and Structures

Paved areas shall be separated from trees by a minimum distance of the drip line or one and one-half feet times the DBH or as modified by the Planning Director as deemed necessary to protect the root system of the tree. Paved areas shall not constitute more than 25 percent of the protected area beneath a tree. Any paving, grading, trenching, or filling within the remaining 75 percent of the protected area must be approved by the Planning Director and may require specific construction

techniques be used in order to preserve the health of the tree. Refer to Chapter 9 exhibits for examples. When grading and construction within the protected area of a tree has been approved, all damaged roots shall be severed clean and inspected by the County Landscape Architect or Inspector prior to the receipt of a Zoning Permit.

E. Quantity and Location of Trees to be Protected

Before the issuance of a Zoning Permit for Commercial, Industrial, Multi-Family, and Civic/Institutional uses, the following number of trees with a diameter breast height of 8 inches or greater shall be preserved and protected in accordance with the provisions of Section 9.4.4.B of this Ordinance. All trees located within required buffers as outlined in ARTICLE 9.5 shall be protected.

1. 20 trees per acre; or
2. Any number of trees with a combined diameter breast height of at least 160 inches per acre.
3. Required drainage improvements such as detention and retention ponds and wetlands may be subtracted from the area used to calculate tree preservation requirements.

Effective on: 11/20/2001, as amended

§9.4.5 Tree Removal

A. Generally

Permits for tree removal may be approved where one or more of the following conditions are deemed to exist by the Planning Director:

1. Trees are not required to be retained by the provisions of this Article.
2. Trees are diseased, dead or dying (as determined by the Planning Director or a qualified arborist);
3. Trees pose an imminent safety hazard to nearby buildings, or pedestrian or vehicular traffic (as determined by the Planning Director or a qualified arborist); or
4. Removal of required trees has been approved by the Board of Zoning Appeals.

B. Variances

Grand Trees and protected trees that do not meet the above criteria may be removed only where approved by the Board of Zoning Appeals, and shall be replaced according to a schedule determined by the Board. The Planning Director will make recommendations to the Board concerning the number, species, DBH or caliper, and placement of such trees.

C. Emergency Provisions

In the event that a tree poses a serious and imminent threat to public safety due to death, disease or damage resulting from emergencies including, but not limited to, fires, flooding, storms, and natural disasters, the Planning Director may waive requirements of this Article. Documentation must later be submitted for review outlining the threat to public safety which initiated the removal. Documentation must include any written findings by a qualified arborist and photographs supporting the tree removal emergency. The Planning Director may require replacement of required trees that are removed where it is determined that death or disease resulted from negligence.

D. Violations and Penalties

Violations and penalties are specified in CHAPTER 11 of this Ordinance.

Effective on: 11/20/2001, as amended

§9.4.6 Tree Replacement

A. Generally

Tree replacement shall be required accompanying development on all non-exempt properties in the manner described below:

1. When replacement canopy trees are required in fulfillment of the requirements of this Article, they shall be no smaller than two and one-half-inch caliper.
2. The Planning Director or Board of Zoning Appeals is empowered to require trees of larger caliper as determined appropriate for site-specific conditions and the circumstances, lawful or illegal, under which removal occurred.

B. Protected Trees Removed in Violation

When trees of 8 inches DBH or greater have been removed in violation of this Ordinance, replacement trees shall be planted in the same general area according to a replacement schedule approved by the Planning Director.

C. Sites with Less Than 160 Inches per Acre Combined DBH

When lots lack a sufficient number of trees to meet the requirement for DBH/number of trees per acre, all trees six inches DBH or greater shall be preserved and protected in accordance with Section 9.4.4.B of this Chapter during development and must equal no less than 40 inches per acre combined DBH. On lots with less than 40 inches per acre combined DBH, additional trees shall be planted on the lot equaling or exceeding 40 inches per acre combined DBH. Planting schedules shall be approved by the Planning Director.

D. Previously Cleared Sites

Where sites were completely cleared of trees prior to adoption of this Article or have been cleared subsequently for activities exempted from this Article, replacement trees shall be planted, the combined caliper of which equals or exceeds 40 inches per acre. Replacement schedules, including number, species, caliper and placement shall be approved by the Planning Director.

E. Tree Fund

The Tree Fund is a fund established to receive monies exacted from tree removal violation fines to include, but not be limited to, removal, damage, destruction, or as defined in Section 9.4.1.C of this Chapter, and as a form of mitigation when planting of the required trees is determined to be detrimental to the overall health of existing trees or impractical for the intended site design. The Planning Director shall impose a Tree Mitigation fee based on the current market retail value of two- to three-inch caliper trees installed to the American Association of Nurserymen Standards. If the applicant disagrees with the amount of the Tree Mitigation fee imposed, they may file appeal with the Board of Zoning Appeals in accordance with the provisions contained in this Ordinance. All Tree Mitigation fees collected shall be paid to the County Treasurer and placed in an account established exclusively for public beautification through the planting of trees in Charleston County.

F. Bankruptcy or Abandonment of Site

When trees have been removed through an approved mitigation program and the project will not be completed for any reason (i.e., bankruptcy, abandonment, change in ownership, etc.), the owners of the subject property are responsible for the mitigation of the removed trees as outlined and agreed or subject to Section 9.4.6E of this Chapter.

Effective on: 11/20/2001, as amended

§9.4.7 Inspections and Final Approval

- A. The Planning Director shall periodically visit development sites prior to completion to monitor compliance with the tree plan approved for a project.
- B. Prior to issuance of a Certificate of Occupancy for a completed structure by the Director of Building Services, the Planning Director shall issue a statement of approval attesting to the developer's compliance with the site plan approved for the project (including landscaping, parking, drainage, etc.). The Director of Building Services shall withhold certificates of occupancy pending verification of compliance. It is the responsibility of the owner or agent to contact the Planning Director regarding the compliance inspection. Such inspections will occur within five working days of contact. Failure to obtain a Certificate of Occupancy prior to occupying or using the building for its intended purpose will result in ticketing and fines. However, the Planning Director shall approve a delayed schedule for planting materials (provided by the applicant's contractor) when the immediate planting schedule would impair the health of the plants. When a delayed planting schedule is approved, the applicant shall provide a bond equivalent to one and one-half times the projected cost of the planting materials. This is designed to include severe weather, such as droughts, heat waves, and floods.
- C. Within three years of the issuance of the Certificate of Occupancy, the Planning Director shall perform a site inspection to verify the health of trees which were retained to meet the requirements of this Article and which may have suffered damage due to insufficient protective measures during development.
- D. Each required tree that is determined by the Planning Director to be diseased or injured to the extent it is irreparably damaged shall be approved for removal. The burden of proof of the extent of the disease or injury shall rest with the applicant, who must provide documentation from a qualified arborist. Any tree damaged during or as a result of construction shall be repaired to the satisfaction of the Planning Director and in accordance with accepted ANSI A300 or International Society of Arboriculture practices. Tree damage must be repaired prior to issuance of a Certificate of Occupancy.
- E. The owners of a non-exempt property or properties shall be responsible for the maintenance of all required trees. No department or agent of the County of Charleston is in any way responsible for the maintenance of required trees on private property.

Effective on: 11/20/2001, as amended

RE: Palmetto Landmark
PD application
Planning Commission
5/13/19
Z-REZ-03-19-00097

To whom this may concern,

My name is John Hamilton and I own the property across Seaside Oaks Drive from Palmetto Storage LLC. I approve of the rezoning of parcel of land in question located behind the Palmetto Storage facility from residential to commercial. I feel this is a better use for this property and it will not negatively affect the residential properties that continue down Seaside Oaks Drive. This property has enough landscape buffers along the rear and sides, which should provide screening from traffic within the parcel.

Sincerely,

John Hamilton

Subject: Palmetto Landing of SC - Boat & RV Storage

I am one of Mr. Bob Redfern's/Palmetto Landing of SC tenants with in the hardware store shopping center that is also owner by the same LLC that has the Storage Units/Storage Area. As a tenant I certainly have no issue with the rear portion of Mr. Redfearn Storage area being zoned commercial and being used for boat and RV storage. I have actually been a tenant at this location for over 12 years and prior to Palmetto Landing purchasing the property the previous owner used the residential portion of the lot for boat/RV storage. In addition to being a tenant who first hand saw no ill effects from the previous owner using the lot in the same manner Mr. Redfearn is attempting to I have also served on both the Edisto Beach Planning Commission (8 Years) and the Edisto Beach ZBA(2 Years). In working on both of those committees I have had to deal with many zoning/change of use issues. With this property being adjacent to an area that is already being used for Boat & RV storage coupled with the fact that when the residential section in questions was previously used for this purpose by the prior owners and caused no issues to the surrounding home/business unless there is something on the books prohibiting this re-zoning I do not see a reason to deny Mr. Redfern's request.

If anyone would like to reach out to me for further comment all of my contact info is listed below.

**ZREZ-03-19-00097 Request to
Rezone Agricultural Residential Zone to
Planned Development Zoning District,
for use for Boat and RV Storage**

Honorable Members of The Charleston County Planning Commission,

The Edisto Island Community Association (EICA) encourages your adoption of ZREZ-03-19-00097, the proposed change of zoning for the use of the parcel for boat and RV storage.

The proposed action is consistent with encouraging the commercial activities at the nodes of the island; that is also compatible or provide contextural development that fits with the existing uses.

Moreover, great care was taken by the applicant and county staff in the planning to address the impacts upon the residential uses, and the existing natural landscape and waters.

We appreciate the care expressed by the applicant, Mr. Redfern, to provide commercial investment and uses that recognizes the unique aspects of the existing environment and the recreational needs of users who frequent the adjoining beaches and Edisto Island State Park.

Respectfully requested.

Dear Mr. Redfearn,

The Edisto Island Community Association (EICA) is most pleased to endorse your application for a Planned Unit Development for the use for a boat storage business. The board unanimously supports your application.

We appreciate the time and expense that was taken to develop a plan that places your business within the commercial node, limited the use of the parcel to the stated purpose of boat storage, that was responsive to the community's concerns and was sensitive to the natural context that the proposed development that would be sited adjoining Scenic Highway 174. Further, any alternative future uses can be reviewed by the community and the Planning Commission. Moreover, your close proximity to the existing boat launch will provide traffic reduction on Highway 174 that as you know, can be quite heavy during the boating months.

Your approach and execution is exemplary. We wish you success in your endeavor.

Sincerely,

Rev. Abraham Gadsden
President

To: Melinda Lucka
Cc: Andrea N. Pietras; Barbara Gould; Apple Computer Inc.; Lloyd Bray
Subject: Edisto Island Preservation Alliance (re: 1.37 acre lot on Seaside Oaks Lane)

Dear Melinda,

Thank you for sending us the site plan and other documentation. The board has considered the information and asked me to send you this response.

The board of directors of the Edisto Island Preservation Alliance would object to any request to change the zoning of your client's lot from AGR to commercial. We would also object to any PD zoning that could be construed as permitting the use of the property as a motor vehicle parking lot for any present or future ancillary businesses. However, we have no objection to the proposed PD zoning that you have described so long as the new permitted use is clearly restricted to boat and trailer storage. The board appreciates your meeting with the neighbors and accommodating them with the screening, access, and signage provisions.

So long as the only use permitted by the PD that would not be permitted by AGR is boat and trailer storage as you described, and so long as it includes the screening, access, and signage provisions that you worked out with the neighborhood, we do not plan to oppose the change. Please furnish us with a copy of the final PD documentation showing that the permitted use is so limited. By copy of this email we are advising Charleston County Planning of our position and requesting that they keep us informed.

Edisto Island Preservation Alliance

**ABANDONMENT
OF PORTION OF
GEDDES AVE.**

SITUATION

Stephen L. Gillespie, the owner of TMS# 350-10-00-154, requests the abandonment of a 50 foot wide undeveloped section of Geddes Avenue. The undeveloped section of Geddes Avenue is located in the Geddes Hall Subdivision in St. Andrews Parish, Charleston County, South Carolina. The 50 foot wide right-of-way covered by this request for abandonment is located between TMS# 350-10-00-154 and #350-10-00-130 on Wappoo Road. This undeveloped right-of-way has never been maintained by the county.

On April 9, 2019, County Council authorized the posting of a public notice. The Notice was posted on April 11, 2019 and comments were received until May 24, 2019. A public comment was received for consideration (copy attached) by the adjacent property owner, TMS #350-10-00-132 and supports the abandonment.

County Directive #290 adopted a policy August 8, 2007 as follows:

To the extent the County has an interest, Charleston County, as a general rule, will not relinquish said interest in land that is adjacent to marshland and/or water. Exceptions must be approved by majority vote of Council, upon recommendation by the County Administrator.

ACTION REQUESTED OF COUNCIL

Deny the abandonment of the County's interest in the undeveloped, 50 foot section of Geddes Avenue located on Wappoo Road in West Ashley.

DEPARTMENT HEAD RECOMMENDATION

The Department Head recommends that Council deny the abandonment of the undeveloped 50 foot section of Geddes Avenue because of a previous Council Directive No. 290, dated August 8, 2007 that references "Waterfront Abandonment Policy".

SITUATION

South Carolina Electric and Gas has requested an easement on County property at S. Grimball Road and Nathaniel Drive, TMS 334-07-00-042, to locate underground electric lines and equipment, which will serve the Baxter-Patrick James Island Library. The request extends fifteen feet (15') on each side of pole lines, five feet (5') on either side of underground wires or pipe lines and twelve (12') feet from any pad mounted transformer (See the attached drawings).

The easement is on the SCE&G form and is standard utility easement terms. The Utility Company will only accept their easement form and language without modification in order to provide electrical services to the Baxter-Patrick Library.

ACTION REQUESTED OF COUNCIL

Approve Department Head recommendation to execute easement.

DEPARTMENT HEAD RECOMMENDATION

Authorize Chairman of Council to execute Easement #898915 with South Carolina Electric and Gas to provide electrical services to the Baxter-Patrick James Island Library.

All documents to be reviewed by the Legal Department.

Easement # 898915

INDENTURE, made this _____ day of _____, 2019 by and between **The County of Charleston** of the County of **Charleston** and State of South Carolina, hereinafter called "Grantor" (whether singular or plural), and the **SOUTH CAROLINA ELECTRIC & GAS COMPANY**, a South Carolina corporation, having its principal office in Cayce, South Carolina, hereinafter called "Grantee".

WITNESSETH:

That, in consideration of the sum of One Dollar (\$1.00) received from Grantee, Grantor, being the owner of land situate in the County of **Charleston**, State of South Carolina, hereby grants and conveys to Grantee, its successors and assigns, the right to construct, extend, replace, relocate, perpetually maintain and operate an overhead or underground electric line or lines consisting of any or all of the following: poles, conductors, lightning protective wires, municipal, public or private communication lines, cables, conduits, pad mounted transformers, guys, push braces and other accessory apparatus and equipment deemed by Grantee to be necessary or desirable, upon, over, across, through and under land described as follows: a tract of land containing **4.77 acres**, more or less, and being the same lands conveyed to Grantor by deed of **Charleston County School District**, dated or recorded **3/6/2017**, and filed in the Register of Deeds office for **Charleston County** in Deed Book **0621** at Page **226**.

The Right of Way is generally shown on South Carolina Electric & Gas Company drawing #D-83032, and is by reference made a part hereof, with the actual final Right of Way to be determined by the facilities as installed in accordance with the easement. A South Carolina Electric & Gas Company drawing, approved by the Grantor, its successors or assigns, will provide authorization for revisions and or future lines.

TMS: 334-07-00-042 S. Grimbball Rd & Nathaniel Dr

Together with the right from time to time to install on said line such additional lines, apparatus and equipment as Grantee may deem necessary or desirable and the right to remove said line or any part thereof.

Together also with the right to lay, construct, maintain, operate, repair, alter, replace and remove pipe lines, together with valves, tieovers and appurtenant facilities for the transportation of gas, oil petroleum products or any other liquids, gases or substances which can be transported through a pipe line.

Together also with the right (but not the obligation) from time to time to trim, cut or remove trees, underbrush and other obstructions that are within, over, under or through a strip of land ("Easement Space") extending Fifteen (15) feet on each side of any pole lines and Five (5) feet on each side of any underground wires or pipe lines and within, over, under or through a section of land extending Twelve (12) feet from the door side(s) of any pad mounted transformers, elbow cabinets, switchgears or other devices as they are installed; provided, however, any damage to the property of Grantor (other than that caused by trimming, cutting or removing) caused by Grantee in maintaining or repairing said lines, shall be borne by Grantee; provided further, however, that Grantors agree for themselves, their successors and assigns, not to build or allow any structure to be placed on the premises in such a manner that any part thereof will exist within the applicable above specified Easement Space, and in case such structure is built, then Grantor, or such successors and assigns as may be in possession and control of the premises at the time, will promptly remove the same upon demand of Grantee herein. Grantor further agrees to maintain minimum ground coverage of thirty six (36) inches and maximum ground coverage of fifty four (54) inches over all underground primary electric lines. Grantor further agrees to maintain minimum ground coverage of twenty four (24) inches and maximum ground coverage of forty two (42) inches over all underground pipe (gas) lines. Together also with the right of entry upon said lands of Grantor for all of the purposes aforesaid.

The words "Grantor" and "Grantee" shall include their heirs, executors, administrators, successors and assigns, as the case may be.

IN WITNESS WHEREOF, Grantor has caused this indenture to be duly executed the day and year first above written.
