

### **WELCOME!**

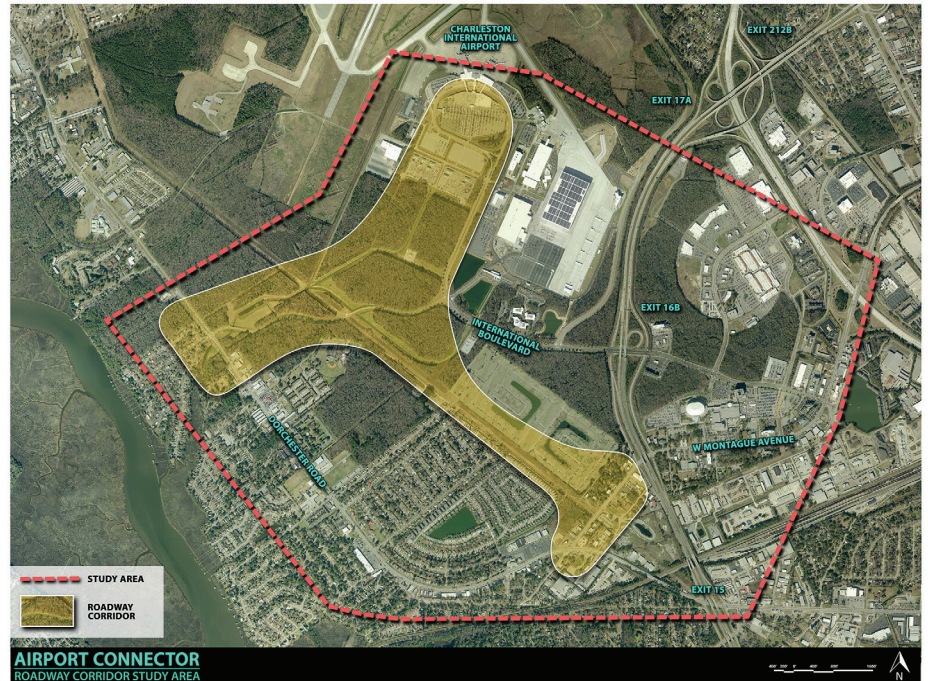

Charleston County Government welcomes you to this public introduction meeting concerning the proposed Airport Connector Road project. Tonight's meeting will be conducted in an open house format which means you are welcome to review the project exhibits at your own pace anytime between 6:00 and 8:00 p.m.

A brief presentation will take place at 6:30 p.m. explaining the project's history, planning process, and schedule.

Project team members are stationed throughout the room to answer your questions. As you review the early planning information and project goals, please share your comments and questions by filling out an ACR Project Comment Card. Comments will be accepted through March 18, 2014.

Thank you for stopping by - your input matters!

# AIRPORT CONNECTOR ROAD PROJECT

## **PROJECT INFORMATION**

The **Airport Connector Road Project (ACR Project)** was initiated by Charleston County Government to provide improved traffic operations and to support economic development goals for the Charleston County area.

The ACR Project will provide a new direct access road to Charleston International Airport and should relieve traffic congestion by providing a new connection from Dorchester Road to Montague Avenue near the Mark Clark Expressway (I-526).

The initial concept is to build over 3 miles of a new, four-lane road, which will provide locals and visitors with a new route to the airport.

Charleston County plans to begin acquiring right-of-way in July 2014 and to go to construction late 2015.

## **COMMENTS**

Comment forms are available if you wish to make a written comment. You may either leave your completed form in the comment box provided at this meeting or alternatively, you can mail or e-mail your comments to: Mr. Richard Turner, PE, ACR Project Manager, Charleston County Government, Lonnie Hamilton, III Public Services Building, 4045 Bridge View Drive, North Charleston, SC, 29405, e-mail: [ACRinfo@charlestoncounty.org](mailto:ACRinfo@charlestoncounty.org)

**Please submit comments concerning the project no later than March 18, 2014.**
