

# PALMETTO COMMERCE PARKWAY: PHASE III PROJECT

**6:00 - 6:30 PM**  
RELAX or REVIEW

Grab a seat for the presentation or visit the exhibits stationed around the room - it's your choice!

**6:30 - 6:45 PM**  
LISTEN

Hear about the project design alternatives and next steps from a project team representative.

**6:45 - 8:00 PM**  
COMMENT

Continue the conversation with project team representatives stationed at each of the exhibits around the room. Please share your thoughts and suggestions on a provided comment card and submit using one of the options stated to the right.

**The Palmetto Commerce Parkway: Phase III Project (PCP3)** was initiated by Charleston County Government to enhance traffic operations and economic development opportunities by developing a connection between Ladson Road and Aviation Avenue in order to relieve major traffic congestion along parallel roads such as Dorchester Road, Rivers Avenue, and I-26.

- **5 Miles:** The initial concept for the PCP3 Project is to build more than 5 miles of a new four-lane road to connect existing Palmetto Commerce Parkway with South Aviation Avenue.

- **3 Areas:** The project is divided into three - Area 1 Ashley Phosphate, Area 2 Midland Park, and Area 3 South Aviation.
- **3 Phases:** The three-phased Palmetto Commerce Parkway has progressed since its inception in 2006. PCP3 is scheduled for completion in 2020.
