# Join Charleston County's Table to Farm Movement

Restaurants can reduce disposal costs and their impact on our environment by composting their food scraps. Send your organic waste back to the farm.

Local farmers add compost to improve the health of their

Local restaurants can further complete the loop by purveying from local farmers.

#### Table

Apply Compost

Residents and local

compost by the bag or

loose ton, which closes

the composting loop.

farmers purchase

In the kitchen, restaurants keep food prep and plate waste separate from the garbage. This food waste, in addition to paper napkins and compostable serve ware, can be composted.

#### Collection

Acceptable food waste is placed in specially marked containers for pick-up.

Recycling food waste savés valuable landfill space.

### Transport

Private haulers, who specialize in collecting food waste, are hired by restaurants for a fee.

## **Buy Compost**

Compost is organic material that can be added to soil to help plants grow. Charleston County's compost is suitable for use in organic farming and gardening.

# How do I start composting my food scraps?

Charleston County Government does not collect or haul food waste directly, but has collection partners listed below. For fees and service options, contact each hauler directly.

**Carolina Waste Services** (843) 576-1100 carolinawaste.com

**Food Waste Disposal** (843) 991-2791 wastefwd.com

**Republic Services** (843) 266-6199 republicservices.com **Smart Recycling** (843) 834-7681 smartrecyclingsc.com

## Why should I compost?

- If you start recycling and composting in your commerical kitchen, you could see a reduction in your disposal costs.
- Diverting food waste from the landfill is better for the environment.
- You can advertise your green efforts.
