

Independent Auditors' Report

To the Charleston County Council
County of Charleston, South Carolina

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information, other than the financial statements of the aggregate discretely presented component units, and the budgetary comparison schedule of the general fund, of the County of Charleston, South Carolina (the "County"), as of and for the year ended June 30, 2010, which collectively comprise the County's basic financial statements as listed in the table of contents. We have also audited the financial statements of each of the County's non-major governmental, enterprise, internal service, and fiduciary funds, and the respective budgetary comparison schedules for the special revenue funds, presented as supplementary information in the accompanying combining financial statements and schedules, as of and for the year ended June 30, 2010, as listed in the table of contents. These financial statements are the responsibility of the County's management. Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the discretely presented component units. Those financial statements were audited by other auditors whose reports thereon have been furnished to us, and our opinion on the financial statements, insofar as it relates to the amounts included for the component units, is based solely on the reports of other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit and the reports of other auditors provide a reasonable basis for our opinions.

In our opinion, based upon our audit and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the County as of June 30, 2010, and the respective changes in financial position and cash flows, where applicable, thereof and the budgetary comparison for the general fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In addition, in our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of each non-major governmental, enterprise, internal service, and fiduciary fund of the County as of June 30, 2010, and the respective changes in financial position and cash flows, where applicable, thereof and the respective budgetary comparisons for the special revenue funds, for the year then ended in conformity with accounting principles generally accepted in the United States of America. In addition, in our opinion, the schedules of capital assets used in the operation of governmental funds as well as the victim notification schedule of fines, assessments and surcharges collected, are fairly stated, in all material respects, in relation to the portion of the basic financial statements from which they have been derived as of June 30, 2010.

As discussed in Note II. B. to the financial statements, the County made adjustments that resulted in restatements of beginning fund balances and net assets for one of its discretely presented component units, to correct certain errors made in the County's financial statements for the year ended June 30, 2009.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 17, 2010, on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the required supplementary information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

The information identified in the table of contents as the Introductory and Statistical Sections is presented for purposes of additional analysis and is not a required part of the basic financial statements of the County. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.
