## Dashcam video in May 8 traffic fatalities

### FOR IMMEDIATE RELEASE

June 8, 2022

**NORTH CHARLESTON, S.C.** – There is no change in Deputy Emily Pelletier's employment status in reference to the May 8 crash that resulted in three fatalities. CCSO will provide any updates when available.

Please follow the link below for available footage from Deputy Pelletier's dashcam. The sheriff mentioned during yesterday's news conference that there is no video from the crash. As stated previously, a technical issue or damage prevented the camera from capturing video before the crash. CCSO handed the equipment to the Highway Patrol to see if any footage could be recovered with the manufacturer's help, but that was not successful. This footage shows only the view from Deputy Pelletier's rear camera after the crash. The front camera view is a blank screen.

The zip file should be downloaded to a Windows PC. Click the "AutoPlay" icon to extract and view.
