Project History

• **2007-2012:** County staff worked to draft and amend County ordinances to allow application processes for projects like Spring Grove to be reviewed and considered for approval.

• **2012-present:**
  – Reviewed 5 sets of draft applications submitted by MWV and worked with the applicant to ensure compliance with County ordinances.
  – Hosted 5 community meetings to gather public input on needs and the proposed Spring Grove development (MWV hosted 2 additional meetings).
  – Worked with County departments and public service providers to determine potential project impacts and mitigation.
  – The applicant decreased the proposed project size from approximately 31,000 acres to approximately 14,500 acres in 2013.
Description of Applications

• Development of County Significance;

• Comprehensive Plan Amendment;

• Zoning Map Amendment; and

• Development Agreement.
Description of Applications

- Development of County Significance;
- Comprehensive Plan Amendment;
- Zoning Map Amendment; and
- Development Agreement.
Development of County Significance (DCS) Application

• Developments of County Significance (DCS) Ordinance provides a process for proposed developments that are 1,000 acres or larger and located in the Rural Area of the County to request development patterns that are different than would be allowed by the existing Comprehensive Plan and Zoning if specific criteria are met.

• DCS applications may only be approved by County Council if it determines that the proposed amendment is consistent with the overall purpose and intent of the Comprehensive Plan and the requirements of the Developments of County Significance provisions contained in the Comprehensive Plan and Zoning and Land Development Regulations Ordinance.
DCS Requirements & Criteria

• At least 75% of the project area must remain as allowed by existing zoning.

• The remaining 25% of the project area may be developed differently; however, applications for a Comprehensive Plan Amendment, Zoning Map Amendment, and Development Agreement must be submitted and must address:
  – The location, density, intensity and time frame for development.
  – Provision of adequate levels of public facilities and services at time of development.
  – Preservation of historic and cultural resources.
  – How the project will blend in with the surrounding area.
  – The inclusion of a variety of housing types and affordability.
  – Economic and fiscal impact analyses.
  – Alternative modes of transportation.
  – Emergency evacuation routes.
DCS Application: Proposed Spring Grove Development

- The applicant has submitted a DCS application that includes a Comprehensive Plan Amendment application, Zoning Map Amendment application, and Development Agreement application that address the required criteria.
Description of Applications

• Development of County Significance;

• **Comprehensive Plan Amendment**;

• Zoning Map Amendment; and

• Development Agreement.
Comprehensive Plan Amendment Application

• The Comprehensive Plan:
  – Is an expression of the County's intent for where and how future growth and development should occur.
  – Identifies parts of the County that may or may not be appropriate for certain types of growth.
  – Is created through an extensive public planning process where input is gathered to help shape the future of how and where growth should occur.

• The applicant has submitted a Comprehensive Plan Amendment application to change the future land use designations for the subject properties to “Development of County Significance.”
  – Currently designated as Resource Management, Agricultural Residential, Rural Cultural Community Protection, and Rural Economic Development.
Description of Applications

• Development of County Significance;

• Comprehensive Plan Amendment;

• Zoning Map Amendment; and

• Development Agreement.
Zoning Map Amendment Application

• The applicant has submitted a Zoning Map Amendment application to change the zoning of the subject properties to the Form-Based Zoning District.

• Form-Based Zoning Districts guide the form and character of the built environment to create development patterns that coordinate the location of a variety of land uses with a connected transportation network in a manner that accommodates pedestrian mobility.

• Requires a Form District Master Plan, which is a toolbox that sets out the parameters for the locations, types, and amounts of development that can occur in the future.
Form-Based Zoning District: Approval Steps

1. **Rezoning of property to the Form-Based Zoning District**
   - Approval of a Form District Master Plan that sets out the parameters for the amounts, locations, and types of development that can occur.
   - Requires Planning Commission recommendation & Council approval.

2. **Subdivision, Community Unit/Special District Plan, Site Plan, and Zoning Permit approvals**
   - Staff level approval process where the applicant submits detailed plans for specific portions of the development that must comply with the parameters of the Form District Master Plan and must address the provision of public facilities and services and address mitigation.
Description of Applications

- Development of County Significance;
- Comprehensive Plan Amendment;
- Zoning Map Amendment; and
- Development Agreement.
Development Agreement Application

- A Development Agreement is a contract between a local jurisdiction and a property owner that details the obligations of the property owner and the jurisdiction, as allowed by state law:
  - Specifies the standards and conditions that will govern development of the property.
  - Provides assurances to the developer that the development regulations that apply to the project will not change during the term of the agreement.
  - Provides clarification regarding project phasing and timing of public improvements to include public services and facilities.

- The applicant is requesting a 50-year Development Agreement that is currently being negotiated with County Council.
Proposed Spring Grove Development

• Keep approximately 75% of the project area as allowed by current zoning:
  – 10,944 acres
  – 437 density units proposed (1 density unit/25 acres)

• Develop remaining area at greater densities and different land uses than currently allowed:
  – 24.5% of project area or 3,564 acres
