## Charleston County's "Living Green" TV Show Airs Third Episode

*U.S. EPA grant funds Charleston County's pollution-reducing education programs*

Viewers can watch the third episode of "Living Green," [Charleston County Government's](#) 30-minute green lifestyle TV show, in December and January. The show is on channels WTAT Fox 24 and My TV Charleston each month.

The topics of the third episode will cover open burning, electronic waste and holiday recycling.

### Featured Guests are:

- Carl Simmons, [Building Services](#) Director, Charleston County
- Gregg Varner, [Solid Waste and Recycling Department](#) Director, Charleston County
- Richelle Tolton, Regional Community Liaison, [S.C. Department of Health and Environmental Control](#) (DHEC)

### **"Living Green" is scheduled to air on the following dates and times:**

DATE	TIME/STATION
Saturday, Dec. 20, 2008	10 a.m. on My TV Charleston, WMMP (Comcast channel 13)
Friday, Jan. 2, 2009	8:30 a.m. on WTAT FOX 24 (Comcast channel 6)

The County's show is funded through a \$236,498 [U.S. Environmental Protection Agency](#) (EPA) [Community Action for a Renewed Environment \(CARE\) grant](#) given for Charleston County's continuing participation in its [Project Impact Partnership Program](#), which aims to reduce local air and water pollution through public education programs.

"The TV show is part of an extensive educational campaign that we are taking on in order to provide information and assistance to our citizens on ways to reduce pollution and improve our air and water quality in order to protect the environment for future generations," said Carl Simmons, Charleston County's Building Services Director who oversees the County's Project Impact program.

The show's host, Matthew Horton, is a journalism major at the College of Charleston who is doing an internship at Fox 24 and MYTV. Guests and panelists will appear on the show, including experts and scientists on the local, state and national level.

In addition to the "Living Green" TV show, other educational campaigns to be developed through the CARE project will also focus on:

- Reducing on-road diesel emissions through reduced idling, retrofits and the use of alternative fuel vehicles
- Controlling open burning
- Promoting mass transit and encouraging the use of public transportation

- Working with boaters to address marine pollution
- Other air and water pollution reduction strategies aimed at the both the general public and specific audiences

**SIDBAR: Background information on EPA's CARE Grant and Charleston County's Project Impact**

- EPA's award is part of EPA's Community Action for a Renewed Environment (CARE) program, a community-based, community-driven program that builds partnerships to help the public understand and reduce toxic risks from numerous sources.
- Since the program was established three years ago, CARE has provided a total of \$7.75 million to more than 49 communities nationwide. The Charleston County CARE project is one of just five awarded in the southeast region.
- The Charleston County's Project Impact Partnership program was formed in 1999 with the help of a Federal Emergency Management Agency grant. There are now 172 local partnership members who focus on making the Charleston County communities more disaster resistant, including undertaking environmental improvement endeavors.
- Project partners previously conducted the Charleston Region Toxics Risk Assessment and identified particulate air pollution and ground level ozone as priority air toxics risks, and fecal coliform bacteria, petroleum product releases and trace metals as priority water pollutants in the Charleston County area. Through the CARE project, project partners aim to heighten local residents' awareness of these air and water pollution sources and encourage actions that individuals can take to reduce pollution.
- Established in 2005, CARE is a competitive grant program that offers an innovative way for communities to organize and take action to reduce toxic pollution in their air, land and water. By joining forces, for-profit and non-profit organizations can work together to improve the environmental health of a community and its residents.

Visit the EPA CARE Web site at [www.epa.gov/care](http://www.epa.gov/care) or Charleston County's web site <http://www.charlestoncounty.org/Departments/BuildingServices/care.htm> to learn more about the CARE program.

To schedule a presentation on environmental quality and pollution issues, local groups can contact [Charleston County Government's Building Services Department](#) at (843) 202-6940.
