County Public Works officials to deliver quarterly update on Main Road Segment A project

Charleston County Public Works officials will host a quarterly public meeting for the Main Road Corridor Segment A project on Wednesday, July 23, 2025, from 6:30 to 7:30 p.m. at Saint John's High School, located at 1518 Main Road.

During the meeting, the project team will provide updates on milestones achieved, work underway, and next steps. Following their presentation, attendees will have the opportunity to speak with the project team directly. As a reminder, the primary purpose of these quarterly project meetings is to provide information. With construction now underway, little deviation from the current design is anticipated.

Funded by the 2016 Transportation Sales Tax, Segment A begins at Bees Ferry Road and continues for 2.4 miles along Main Road to River and Chisolm Roads. The project's purpose is to reduce congestion at the intersection of Savannah Highway and Main Road, increase capacity along Main Road from Bees Ferry Road to River Road/Chisolm Road, provide safe bicycle and pedestrian access, and improve stormwater drainage throughout the project area.

The project team will host quarterly public meetings to deliver status updates and answer questions throughout the duration of construction.
