EXHIBIT “A”

AMENDING THE CHARLESTON COUNTY ZONING AND LAND DEVELOPMENT REGULATIONS ORDINANCE, NUMBER 1202, AS AMENDED: CHAPTER 5, OVERLAY AND SPECIAL PURPOSE ZONING DISTRICTS.
§5.11.1 STATEMENT OF FINDINGS
The St. Andrews Area Overlay Zoning District includes unincorporated properties that front on the east and west sides of Highways 61 and 17 from its intersection with Wesley Drive to Ashley Hall Road and Wantoot Boulevard respectively, as shown on the map titled “St. Andrews Area Overlay Zoning District”. This area contains major thoroughfares in West Ashley that carry a large number of vehicles each day to Charleston through rural areas, commercial areas, and established neighborhoods. Moreover, some of the properties along Highways 61 and 17 in this area are located within the jurisdictional limits of the City of Charleston and others are located in unincorporated Charleston County.

§5.11.2 PURPOSE AND INTENT
The purpose of the St. Andrews Area Overlay Zoning District is to create a corridor that is well-planned and attractive through the implementation of consistent land use and design standards with adjacent jurisdictions and the utilization of traffic safety measures and access management for vehicles and pedestrians to ensure safe and efficient traffic movement. Additionally, this overlay zoning district is intended to provide appropriate services to well-established neighborhoods and provide a transition from the more intense commercial development along the corridor.

§5.11.3 EFFECT OF OVERLAY ZONING DISTRICT
The St. Andrews Area Overlay Zoning District regulations of this Article apply in addition to the underlying (base) zoning district and all other applicable regulations of this Ordinance to impose different development rules for properties within the overlay zoning district. In case of conflict between the regulations of this Article and other regulations in this Ordinance, the regulations of this Article shall control. These district regulations are intended to be consistent with similar regulations adopted by the City of Charleston. Legally established existing development that does not meet the requirements as described in this Article shall be considered legal nonconforming and shall be subject to the legal nonconforming requirements of this Ordinance.

§5.11.4 APPLICABILITY
The standards of this Article shall apply to all development within the St. Andrews Area Overlay Zoning District, as shown on the map titled “St. Andrews Area Overlay Zoning District,” except for single family detached residential development.

§5.11.5 COORDINATION WITH ADJACENT JURISDICTIONS
A letter of notification to the City of Charleston shall be required as part of all land development applications with the exception of applications for single family detached residential uses. The purpose of the notification is to ensure that the City of Charleston is aware of proposed development and that there is consistency in land use, density/intensity and dimensional standards, and design and development standards adopted by the County and City of Charleston.

§5.11.6 DEVELOPMENT STANDARDS AND REQUIREMENTS
The following development standards and requirements apply to all parcels within the St. Andrews Area Overlay Zoning District. All development applications shall, at the time of application, include documentation that the following requirements will be met prior to the issuance of any approvals or zoning permits:
A. Vehicle Access

1. All parcels in this overlay zoning district with a Future Land Use designation of Office Residential (OR) are allowed one curb cut per 75 feet of road frontage; all other commercial or multifamily uses are allowed one curb cut every 150 feet.

2. Proposed new access drives shall be located a minimum distance of 75 feet from any existing street intersection as measured from the edge of the intersecting roadway to the beginning of the driveway radius.

3. All applications for development of nonresidential uses shall include suitable access management plans demonstrating that the driveway separation requirements will be met. The following techniques may be employed to achieve this result, but the burden of accomplishing the desired effect remains with the developer of the property:
   a. Aggregation of parcels;
   b. Parallel frontage or “backage” roads;
   c. Shared curb cuts between adjoining properties; and
   d. Shared access easements between parcels.

B. Traffic Study

A traffic impact analysis shall be required in all instances in which the proposed development area exceeds five (5) acres or if the proposed development includes one or more of the following:

1. Fifty (50) or more dwelling units;
2. One (1) or more drive through service windows;
3. Six (6) or more fuel dispensing units;
4. More than 10,000 square feet of floor area;
5. Requires a variance from the driveway (curb-cut) spacing requirements;
6. A restaurant with more than 4,000 square feet of gross floor area; or
7. Where the number of peak hour vehicle trips is projected to exceed 100 per the latest edition of the Institute of Transportation Engineers Trip Generation Manual.

Such traffic impact analysis shall comply with the requirements of Sections 9.9.2 and 9.9.3, Traffic Impact Studies, of this Ordinance, and shall be prepared by a qualified professional. Traffic impact studies shall be provided to the County for review simultaneous with submission of the preliminary site plan for consideration.

C. Pedestrian Access

Bike and pedestrian ways shall be included in site design and shall link access
to adjacent parcels, as well as within the development area. Grade-separated pedestrian walkways shall provide direct connections from the street to the main entrance and to abutting properties. Pedestrian walkways shall be designed and located in a manner that does not require pedestrians to walk through parking lots or within driveways.

D. Building Height
Building height is limited to a maximum of 35 feet and two and a half (2 ½) stories as defined by this Ordinance. However, the height may be a maximum of fifty five (55) feet and four (4) stories when the building meets all applicable setback and buffer requirements and the following conditions:

1. The portion of the building exceeding thirty-five (35) feet in height is stepped back at least thirty (30) feet from the portion(s) of the building that meets the thirty-five (35) foot height requirement; and

5. Electronic message board signs and billboards shall be prohibited.

F. Building Coverage
The building coverage shall not exceed thirty-five percent (35%) of the parcel. However, the building coverage may be increased by up to fifty percent (50%) of the parcel when the increase is offset by an equal area of driveways, parking or other hardscape areas that utilize pervious materials. Pervious materials may include, but are not limited to pervious pavers, pervious concrete or other appropriate pervious surface treatment that do not cause surface water to runoff and allow water to absorb into the ground, as approved by the Planning Director.

G. Residential Area
Parcels intended for non-residential uses are indicated on the St. Andrews Area Overlay Zoning District Map and may be developed in accordance the regulations of this ordinance. Unless shown otherwise, parcels in the following specific areas of the overlay zoning district are to remain residential:
